Stock lists can be seen and information obtained on the premises, or at the office of Messrs. A. M'ARTHUR and CO., York-street, to whom tenders are to be addressed.

---

**TO CARPENTERS.**—TENDERS are required for (labour only) for putting on the ROOF of St. Jude's Church, Randwick. Plans and specification to be seen on application to Mr. EDMUND T. BLACKET, Mort's-buildings, to whom tenders are to be addressed on or before MONDAY, July 25th. No tender will be accepted unless perfectly satisfactory.

---

**PUNT.—PITT TOWN AND WILBERFORCE.**—The Road Trustees at Pitt Town invite TENDERS, to be sent in on or before the 1st August, for the construction of a PUNT, for the ferry over the River Hawkesbury, between Pitt Town and Wilberforce. The plan and specification obtained from the Department of Public Works may be seen, and all other information obtained, on application to H. A. PALMER.

Pitt Town, July 2nd.

---

**TO BOOKSELLERS**, Dealers, and others.—TENDERS will be received until THURSDAY, noon, 14th instant, for the purchase of a surplus stock of magazines and periodicals, &c., imported by mail. Apply to READING and WELLBANK, 356, George-street (late J. B. Clarke).

---

**TO CONTRACTORS.**—TENDERS are required for the erection of wharves at Rockhampton for the Australasian Steam Navigation Company. Plans and specification may be seen on application to Mr. WILLIAM E. KEMP, Mort's-buildings; or to the company's agent at Rockhampton. Tenders to be delivered to the manager, at the company's offices, Sussex-street, Sydney, at or before 12 o'clock on FRIDAY, 15th current. No tender will be accepted unless perfectly satisfactory, and security will be required for the performance of the works.

---

**TO MASONS.**—The time for receiving TENDERS for COTTAGE at Coogee is extended to the 17th July.

---

**DISSOLUTION OF PARTNERSHIP.**—The undersigned having disposed of their business as wholesale and retail butchers, have this day dissolved the partnership hitherto existing, and request that all parties indebted to them will pay their accounts to JOHN B. LAVERACK, auctioneer, Windsor, on or before the 24th instant. All accounts unpaid on the above date will be sued for without further notice.

WILLIAM DARGIN,
JAMES DARGIN, Windsor.

Witness—John B. Laverack.
July 8, 1864.

---

**NOTICE.**—I have, this day, disposed of the Grocery Business hitherto carried on by me at 611, George-street, Haymarket, to Mr. TIGHE, whom I have much pleasure in recommending to my friends and customers as my successor.

July, 7th. JAMES ATKINSON.

In reference to the above advertisement I beg to inform customers and the public, that having purchased the whole of Mr. James Atkinson's large stock of teas, sugars, oilstores, &c., at very low prices, considerable advantage will accrue to purchasers by calling at this establishment before proceeding elsewhere,—the cultivation of a family trade will receive my most careful attention, the knowledge gained by long experience with my brother, in William-street, will enable me to select such goods as are specially adapted to that trade. Settlers' orders will receive every attention, and none but first-class goods will be forwarded.

R. S. TIGHE, 611, George-street.

---

**PRODUCE STORES.** — Messrs. DURHAM and IRWIN are prepared to receive wool, sheepskins, tallow, hides, &c., for sale by auction or privately, at their Produce Stores, Circular Quay.

Liberal advances made on wool, sheepskins, tallow, and hides consigned to them for sale or shipment.

Circular Quay, 1st October.

---

**AUCTIONEER'S NOTICE.**—THOMAS DAWSON begs to inform the public generally, and his constituents in particular, that he has disposed of his Railway Auction Depot, and Hay Sales business, to Mr. F. P. MEARES, to whom he trusts his numerous connection will continue to consign their produce. He feels convinced that Mr. Meares will carry on the business in such an energetic and attentive manner, as to warrant T. Dawson in strongly recommending him to the favourable notice of his friends.

With reference to the above F. P. MEARES, late of the Oriental Bank, begs to state that he intends to continue the business as Produce Auctioneer, at the Depot in Parramatta-street, and at the Hay Shed at the Railway Terminus.

F. P. M., in making this announcement, takes the opportunity of stating that it is his intention to devote the whole of his time and attention to this business.

F. P. M. begs to solicit the support of Mr. Dawson's constituents, and of the public generally, and assures those who may favour him with orders or consignments, that no effort shall be wanting on his part to give satisfaction.

All accounts will be settled immediately after the sales.

Railway Auction Depot, Parramatta-street.

---

**MESSRS. W. H. MACKENZIE and COMPANY** beg to intimate to their friends and the public that they have commenced business as Agents for the SALE of STOCK, FARM, and DAIRY PRODUCE.

Having secured for a PRODUCE DEPOT those central premises situated at the back of GREIG'S RAILWAY HOTEL, opposite the entrance to Sydney Railway Station, Messrs. MACKENZIE and CO. are now in a position to effect sales, either privately or by auction, of any consignments with which they may be entrusted.

They have completed arrangements for holding regular sales of Hay, by auction, every Tuesday and Friday morning, at 10 o'clock, at the Railway Terminus, Sydney, and of all other descriptions of Farm Produce, at 11 o'clock on the same days, at their Produce Depot.

In introducing themselves in the above line of business, Messrs. MACKENZIE and CO. beg to state that it will be their endeavour, by an unceasing attention to the interests of their constituents, and by prompt payments of sale proceeds, to merit a share of public support.

Letters may be directed to No. 10, Exchange, Sydney, or to the Depot.

Sydney, 7th July, 1864.

---

**TO CHEMISTS, DRUGGISTS, &c.**—The undersigned are prepared to take indents as AGENTS for the well known and long established firm of Curling and Co., London, on most liberal and advantageous terms.

L. and S. SPYER and CO., Wynyard-square.

Trade lists and particulars may be obtained at the office.

---

**MEDICAL CARD.**—Dr. VAN HEEKEREN, Consulting Physician, from New York (U.S.), may be consulted confidentially on all nervous diseases and prostration of the system, nervous and physical debility, all neglected complaints, and those arising from exposure, imprudence, or excesses.

Dr. Van Heekeren's great experience in the hospitals of Paris, and his long practice in the United States of America, give him the guarantee of great success also in this colony.

All cases given up by other physicians as incurable will be attended to with the utmost care.

Consultations to both sexes, from 9 a.m. till 9 o'clock in the evening, at 283, Castlereagh-street, near Park-street.

N.B.—Private and separate waiting rooms.

---

**LOSS OF TEETH SUPPLIED** from one to a complete SET, by Mr. BERTRAND, Surgeon-Dentist, on the newest inventions in dental surgery, adapted to the different requirements of each case, by which combination a perfect fit, comfort, and beauty, can be guaranteed; the materials and cost of which defy competition. Hours from 9 till 6. Mr. BERTRAND, 27, Hunter-street.

---

**TOOTHACHE.**—An immediate relief for this dreadful malady; price 2s. 6d. BERTRAND, 27, Hunter-st.

---

**ARTIFICIAL TEETH.**—Mr. M. EMANUEL, DENTIST, continues to supply ARTIFICIAL TEETH, of the most natural appearance. Guaranteed to restore articulation and mastication. Mr. E.'s system embraces all the latest improvements, and does away with all pain to the patient. Teeth stopped, 5s; teeth extracted, 2s 6d. ☞ Note the address—the OLD DENTAL ESTABLISHMENT, 230, George-street, near Hunter-st.

---

**NOTHING IMPOSSIBLE.** — GOSNELL'S AQUA AMARELLA restores grey hair to its original colour. Agent for Sydney, W. PRATT, chemist, &c., 619, George-street (opposite Wilshire-place).

---

**PARRAMATTA.—ALEXANDER HOUISON**, Wine and Spirit Merchant, &c., begs to inform his friends and the inhabitants of Parramatta with the surrounding districts, that he has commenced business with a large and well selected stock of wines, spirits, beers, teas, and sugars, &c., which he can strongly recommend to their notice, being of the best quality, and hopes, by strict attention and reasonable prices, to ensure a share of their favours. Church-street, Parramatta, 1st July.

---

**MR. FLETCHER**, Dentist, 9, Wynyard-square, begs to inform his friends and the public that his hours of attendance during the winter will be from ten till one; the afternoon being devoted to engagements previously made. Wynyard-square, June 1, 1864.

---

**LUXURIANT WHISKERS or MOUSTACHES.**—My Formula forces them to grow heavily in six weeks upon the smoothest face, without injury to the skin, and a sure remedy for baldness and the hair falling off. Enclose 26 stamps to G. J. ROBINSON, Post Office, Brisbane.

---

**NERVOUS DEBILITY.**—Dr. PERRY and CO., surgeons, may be consulted on all cases of nervous debility, premature decline, palpitations, impairment of the powers of the mind, and physical incapacity of the body, skin diseases, &c. Patients, consulting by letter, should be minute in stating their cases. Inviolable secrecy maintained. Surgery, 126, Castlereagh-street, Sydney.

---

**ESTABLISHED 1842.—TEETH.**—Dr. J. EMANUEL, Examined Surgical and mechanical Dentist, No. 178, corner of Pitt and King streets. Persons who suffer from tender gums and loss of teeth consult Dr. EMANUEL. Success by his new method is certain; they can be replaced without extracting sound stumps or causing the slightest pain, so often resorted to by inexperienced persons. They are easily placed on the most tender gums, never change colour or break, and will be found of great importance in all cases of absorption, their tendency being to support any remaining teeth, securing health, comfort, and personal appearance; for as mastication and articulation are perfectly restored, the wearer becomes unconscious of wearing artificial teeth. Moderate charges to meet the means of all classes. Teeth and stumps extracted; teeth cleaned and stopped with gold cement; children's teeth regulated. 178, corner of Pitt and King streets, opposite Mr. Toogood's hotel. Hours, 9 to 5.

---

**IMPORTANT MEDICAL ADVICE.**—Mr. THOMAS PATTERSON, Herbal Physician, Professor of Medicine, Author of the Universal Herbal, or Botanic Guide to Health, &c., of many years experience, may be confidentially consulted on all secret diseases, nervous debility, skin diseases, chronic rheumatism, gout, diseases of the liver and kidneys, diseases of females, and all diseases occasioned by the injudicious use of mercury upon the system. Apply from 9 till 1 a.m., and from 7 till 9 p.m., at the Herbarium, 255, Elizabeth-street, four doors past Bathurst-street, opposite the Race Course, or if by letter will be faithfully attended to. At the Sydney Horticultural Flower Show, the first and second prize was awarded to Mr. Thomas Patterson, for the best and largest collection of medical plants ever exhibited in the colony.

---

**HOSTETTER'S STOMACH BITTERS.**—From a vast manufactory situated in the heart of the great rye-producing district of the United States (the Monongahela Valley), the proprietors of "Hostetter's Bitters" ship to all parts of North and South America and the West Indies enormous quantities of their famous preparation. Not less than 10,000 dozen bottles per annum are sent to California alone. They have now extended their agencies to Australia, and it is believed that no part of the world more urgently requires a pure hygeian stimulant and alterative. The Bitters are a combination of the unadulterated essence of rye with many of the most powerful restorative herbs and roots known in pharmacy. The medicine is a specific for dyspepsia, fever and ague, general debility and constitutional weakness. But it is something more than this. The use of it will inevitably prevent all evil consequences from the malaria of new soil, whether wet or dry, and protect the system against epidemics arising from heat, sudden changes of temperature, and other climatic influences inimical to health. This is the universal testimony of the miners of California, and from all parts of Spanish America.

Sold by all the principal Druggists.

---

**MURRAY AND LANMAN'S FLORIDA WATER.**—The test of the genuineness and purity of a floral perfume is its duration when exposed to the air. The aroma derived from chemical oils soon dies out and leaves behind it an odour which is anything but agreeable, but that which is obtained by distillation from fresh and odoriferous flowers and blossoms improves by contact with the air and lasts a great length of time. Hence Murray and Lanman's Florida Water, the concentrated product of rare Southern flowers, gathered in the zenith of their bloom and fragrance, has not only the freshness of an unwithered bouquet, but it is indestructible except by the washing of the article moistened with it.

For sale by all Perfumers and Druggists. Wholesale Agents, J. and E. ROW, Pitt-street, Sydney.

---

**BRISTOL'S SARSAPARILLA.**

Mineral Murders.—All the active poisons are used in medical practice, and they all evidently shorten life. Bristol's Sarsaparilla is one of the few preparations that is really and purely a vegetable remedy. It contains not one grain of mercury, arsenic, strychnine, bromine, iodine, or any other poison. Moreover, it is an antidote to them—it cures the diseases they cause. At the best they only kill one malady by substituting another; but Bristol's Sarsaparilla acts with nature, not against it, for ever removing, by its neutralising power, the causes of ulcerous, cancerous, and eruptive diseases, regulating the liver and the stomach, invigorating and regulating the bowels, relieving the system of all morbific elements, restoring bodily vigour and mental elasticity, and recuperating every languid organ. Children and the most delicate females may take it without fear. It is the salvation of the feeble.

For sale by all druggists. Wholesale agents, J. and E. ROW, Pitt-street, Sydney.

---

**BRISTOL'S SUGAR-COATED PILLS.**

It concerns the sick to read these facts.—To over thirteen hundred editors of leading papers in the United States sample packages of Bristol's sugar-coated pills have been presented, with the request, that each editor should state the effect the medicine may have had in his own family, or on his sick friends. From the innumerable satisfactory statements published in reply, we make the following brief extracts: R. D. Croswell, Esq., of the Daily Times, says, "In the case of a lady, a near relative of the writer, the pills have effected the removal of dropsical swellings that had existed for more than three years." J. B. Goodwin, of the Loraine Gazette, one of the ablest weeklies in the West, states that he was promptly relieved from chronic torpidity of the bowels, accompanied with painful constipation, by the sample of pills received last October, and apprehends no return of the complaint." Joseph Edwards, Esq., of the Tribune, writes, "I was, so I thought, a hopeless dyspeptic, but two vials of Bristol's Sugar-coated Pills seem to have entirely banished the complaint, to which I had been a martyr, more or less, for twelve years." Such evidence is conclusive. They are put up in glass vials, and will keep in any climate. Sold universally by prominent druggists.

---

**KAYE'S WORSDELL'S PILLS.**—These pills are a purely vegetable preparation, and may be taken at any time by either sex without fear of danger. They act upon the bowels mildly yet effectually, and by their fine tonic, aromatic, and aperient properties, they remove all oppressive accumulations, regulate the secretions of the liver and bowels, strengthen the stomach, and purify the blood. Unlike many remedies, they do not induce liability to take cold or establish a necessity for the habitual use of purgatives, and are thus strongly recommended as the

BEST FAMILY MEDICINE.

To emigrants and persons residing in the colonies these pills are invaluable, as the very numerous testimonials which reach the proprietor as the spontaneous expressions of gratitude on the part of heads of families and others prove that, except in rare instances, where Kaye's Worsdell's pills are used

NO OTHER MEDICINE IS EVER REQUIRED.

Prepared solely by JOHN KAYE, Esq., of Prospect Hall, Woodford, Essex. Sold by all chemists and other dealers in patent medicines, at 1s. 1½d., 2s. 9d., and 4s. 6d. Wholesale Depot, 22, Bread-street, London.

---

**HOLLOWAY'S OINTMENT.**—The renowned remedy famed throughout the globe. The Indian in the back woods, and the savage aborigines of Australia in the desert are alike familiar with this all-powerful unguent. Sold by Messrs. SARPY and MUSGRAVE, 93, King-street, Sydney.

---

**HARPER TWELVETREES' GLYCERINE SOAP POWDER** is a compound of soap-making materials, and is economical, efficient, and harmless. Mrs. Goulder, Chelsea Laundry, London S.W., says, "She can wash fifty counterpanes with four penny packets of Harper Twelvetrees' Glycerine Soap Powder, and half-a-pound of soap, in six hours; and sheets, shirts, table linen, and other articles in one half the usual time. Patentee: Harper Twelvetrees, Bromly-by-Bow, London.

Wholesale agents for New South Wales: Messrs. E. and W. PAUL, merchants, 89, York-street, Sydney.

# LAW.

## SUPREME COURT—Monday.

Ecclesiastical Jurisdiction.

Before Mr. Justice Milford and a jury of four.

Burford and another v. Burford.

The trial of this case was again resumed, and lasted all day without being concluded.

## CENTRAL CRIMINAL COURT.

Monday.

Before Sir Alfred Stephen, Chief Justice.

Larceny.

J. W. Croft Pritchard was indicted for that on the 17th of February last, at Panbula, he feloniously stole a warrant for the payment of £204, the property of William Hibbert.

Prisoner pleaded not guilty, and was defended by Mr. Isaacs, instructed by Mr. Milford.

The Solicitor-General stated the case for the Crown.

Constable Joseph Swinford deposed that, in February last, he was stationed at Panbula; by virtue of a criminal offence warrant he apprehended prisoner on the 2nd March, at Newcastle, for stealing a cheque for £204; he told prisoner that he was looking for him, and prisoner said "it's about that cheque of Mr. Hibbert? I have returned the cheque to Mr. Hibbert; I am very sorry; it was very foolish of me." Witness then took him into custody and brought him on to Sydney.

William Hibbert, squatter, deposed that he lived five or seven miles from Eden, in the county of Auckland; he knew the prisoner who, accompanied by his sister (Mrs. Bennett), on the 17th February visited witness; witness told him that he was going to send a cheque to Mr. Barclay at Eden; prisoner offered to take the cheque; it was for £204, drawn on the Commercial Bank, in favour of George Barclay, merchant; witness had never seen the cheque since, and did not know anything about it; prisoner wrote the cheque, as he had often done before; it was put into an envelope; the cheque was dated, 17th February; the envelope was addressed to "George Barclay, Esq.;" witness sealed the envelope; he received a letter from Mr. Barclay on the 22nd of the same month, and he sent a messenger to Mr. Barclay to know why he had not received the cheque; he gave him no authority to cash the cheque, but merely to forward it for delivery to Mr. Barclay.

Cross-examined by Mr. Isaacs: He had known the prisoner for about two years; as far as he knew, prisoner was a very respectable young man; he read the cheque and signed his name; the amount was stated in words as well as in figures; if the cheque had been cashed, he had not been debited with it.

John Marshall Walker, Clerk of Petty Sessions, at Eden, deposed, that he knew the prisoner; on the 18th, at Panbula, he saw prisoner, who did not then or at any time give him a cheque or speak of a cheque or letter for Mr. Barclay; he saw Mr. Barclay at Eden on the 18th; Mr. Barclay is a magistrate; he saw him on the 30th of June, at his house at Eden; Mr. Barclay is an elderly man; he was then very unwell, and apparently unable to leave his room.

Malcolm M'Phee, innkeeper at Panbula, deposed he knew the prisoner, and saw him at his place on Wednesday, Thursday, and on Friday morning, the 17th, 18th, and 19th of February; prisoner owed witness some money; said he wanted to pay him his account of about £4, and that if witness would give him £10 in cash he would give him a cheque for the whole amount; witness said that his cheque would be of no use to him, and prisoner showed him a cheque for over £200; it was signed by Mr. Hibbert; it was a written cheque; he looked at the amount and the handwriting, but could not say positively in whose favour it was drawn; the signature was in Hibbert's handwriting, but the body of the cheque was filled up by prisoner; prisoner gave his own cheque on the Bank of New South Wales; his own cheque was written on a printed form, and was for £8; he gave prisoner about £4 3s. change; prisoner's account was for board and lodging, and a "good number of nobblers;" the account had been running about six weeks.

Cross-examined by Mr. Isaacs: The amount for nobblers was not very excessive.

William Neill, secretary to the Commercial Banking Company, deposed: He saw the prisoner on the 22nd February in the Commercial Bank, George-street; prisoner presented a cheque signed by William Hibbert for £204, and he requested that it might be cashed as he wanted the money to meet another cheque which he had drawn on the Bank of New South Wales to pay his passage by the Blackwall to England; the cheque was drawn on the Commercial Bank, Sydney; it was not written on a printed form, and was for £204; there was some difficulty about the recurrence of that particular amount in Mr. Hibbert's account; he told prisoner that he did not feel justified in paying the same without Mr. Hibbert's special authority; the cheque was payable to George Barclay or bearer; he had not seen the cheque since; prisoner referred to Mr. Tidswell, who could identify him; witness told him he could not pay the cheque unless Mr. Tidswell would indemnify the Bank; prisoner said he did not think it right to ask Mr. Tidswell to become responsible for a matter in which he had no concern; Mr. Jacobs, of the Post Office Hotel, where prisoner was staying, and a clerk of the agents of the Blackwall were with prisoner when he called at the Bank; he called twice; prisoner said he got the cheque from George Barclay, Eden, along with other moneys; the cheque was returned to prisoner; he next saw prisoner at the Eden police-office.

Henry Earnshaw Tidswell deposed that he was a member of the firm of Tidswell, Wilson, and Co.; he had known the prisoner two or three years; prisoner came to Sydney with a letter of introduction to him; on the 25th February prisoner sent him a cheque in a letter, and he sent both by post to Mr. Bennett, of Panbula; he posted the letter himself on the 26th February; neither the letter nor cheque was returned to him, and he had not seen them since; he knew the prisoner's handwriting; the cheque was in prisoner's handwriting; it was for over £200, and in favour, he thought, of Mr. Barclay.

John Henry Bennett deposed that he was a storekeeper at Panbula; he was a magistrate of the territory; prisoner was his brother-in-law, and he had known him about two years; he received a letter about the 28th of February, but it did not contain Hibbert's cheque; the letter was about a cheque; he read it to the Bench at Panbula, but had not brought it with him to Sydney; Tidswell's letter stated that he enclosed another letter received by Tidswell from prisoner; he never received the letter or cheque referred to.

Cro

The prisoner was sentenced to two years' imprisonment, with an intimation that if his conduct were good at the end of the twelve months, a remission of the further term would be recommended.

Perjury.

Henry Falconer was indicted for having committed wilful and corrupt perjury, before Robert Scott Ross, J.P., at Sydney, on the 21st March, in a charge brought by him against one John Glover.

The Solicitor-General prosecuted on behalf of the Crown; and the prisoner was defended by Mr. Isaacs, instructed by Mr. R. D. Smith.

Frederick Hales, deposition clerk in the Central Police Court, deposed to taking the defendant's evidence in the case against Glover, who was charged with forgery at the instance of defendant. The evidence was read over to him, and he signed it.

John Glover deposed: I am a shipwright, resident in King-street; I was brought up at the Police Office charged by defendant with forgery; it was on the 21st March, and Mr. Ross was the magistrate; I saw defendant sworn; an information was read charging me with altering the date of a promissory note; it was read after he was sworn; I heard him give his evidence; the evidence was read over to him, and he signed it; I believe the signature to the paper produced to be defendant's; I cannot say what he was sworn upon.

Frederick Hales recalled: I do not know what defendant was sworn upon; there is a Bible specially kept for swearing witnesses upon, and no other book, but I cannot say whether he was sworn on that. I have no doubt he was sworn on the Bible, but I cannot swear it.

His Honor pointed out that in addition to this there was a further objection which, in his opinion, was fatal. The document at issue was a promissory note, whereas the charge was for forging an order for the payment of money. In such a charge, it could not be material to prove that there had been a forgery of a promissory note. On this account and from the want of evidence in regard to the swearing, he should direct the jury to acquit the prisoner.

On this direction the jury returned a verdict of not guilty.

Bigamy.

Daniel Berry was indicted for having married Esther Jarrett, at East Gosford, on the 25th December, 1846, and whilst she was still alive having on the 31st March, 1864, married Elizabeth Miller, at Singleton.

Prisoner pleaded not guilty and was undefended; the Solicitor-General prosecuted on the part of the Crown.

According to the evidence, prisoner was married first by the Rev. Mr. Rogers, then Church of England Minister at East Gosford, Brisbane Water; and after living with his wife for about thirteen years, left her. The two separated, and the wife went to live with another man. About six months ago the prisoner went to Singleton, after the second wife who had gone there with her parents; and there he contracted the second marriage. After this marriage, prisoner and the second wife, a girl of seventeen, came back to Gosford, and settled in the very midst of his first wife's family, and within only a very short distance from where his first wife was living. As a natural consequence, information was given to the police, and the prisoner was apprehended. On being taken into custody, prisoner did not deny the charge, but said that his wife had been away from him near upon seven years, and it was very hard upon him if he should have to live single all his life. The sister of his first wife, whilst deposing to have been present at the first marriage, also bore testimony to the fact that prisoner had always behaved well to his wife, and that she had left him entirely by her own fault.

Prisoner, in his defence, said that he did not recollect being married a second time. He had had a bad wife once, and he never got married again to his knowledge. His head had been bad for the last two or three years, and he sometimes altogether lost his recollection.

His Honor, in summing up, commented on the unfortunate position in which this unfortunate girl, the second wife, was now placed, and very much feared that marriage in some parts of the colony was thought too lightly of, and was entered upon with too little consideration. His Honor also drew the attention of the jury to the question whether the prisoner's state of mind was such as to make him an accountable being.

John Buckley, the apprehending constable, was recalled, and deposed that his attention had been called to Miller's place, and to the way in which he and his children were living; he went there before Miller went to Singleton, and in passing called in at prisoner's hut, where he saw the girl Elizabeth Miller, who he was told was living with prisoner as his wife; he then went into Miller's and remonstrated with him upon the way in which he was bringing up his family; he did not deny it, but not seem to care much about it; after this Miller and his family went away to Singleton; he might also mention that the first and second wife were related, the second wife being the niece of the first one.

The jury retired, and after a lengthy absence, returned with a verdict of guilty, recommending him to mercy on the ground of the provocation he had received by the desertion of his first wife.

His Honor, in passing sentence, pointed out that the prisoner had committed perjury as well as bigamy; but at the same time said that he had lost all sympathy with the second wife, as he believed that she was unworthy of it from having been living with the prisoner as his wife prior to the marriage. The prisoner was sentenced to twelve months' imprisonment in Parramatta gaol.

The Court adjourned to Wednesday morning, at ten o'clock.

## METROPOLITAN DISTRICT COURT.

Monday.

Before Mr. District Judge Cheeke.

Nathan and others v. Field.

This was an action by the trustees in the assigned estate of Dr. Foulis, to recover the sum of £6 10s 7d, for medical attendance on defendant's family. The amount originally sued for was £30 9s., but was reduced by the admission of a set-off of goods supplied to Dr. Foulis by defendant, and pleaded by him. Dr. Foulis deposed that he attended different members of defendant's family during the latter part of 1862 and the early part of 1863. Witness produced a book purporting to contain entries of the alleged visits to defendant's family in September, October, November, and December, 1862, and January and February, 1863; but in answer to questions by Mr. Salamons, counsel for defendant, Dr. Foulis admitted that the book contained copies only of the original entries, the original entries being made in daily memoranda. Thereupon Mr. Salomons objected to the book as evidence, and this objection was sustained, the witness was, however, allowed to use the book, subject to the subsequent production of the original memoranda. Dr. Foulis sent for these papers, and this examination was proceeded with. He stated that he made a number of visits during the above mentioned months, and that he paid his last visit in the month of February, 1863. In cross-examination by Mr. Salamons, Dr. Foulis admitted that he made the entries of his visits from memory. He denied that he had often been wrong in regard to his visits to patients. During the greater part of the time he visited defendant's family to attend on defendant's boy, who was suffering from inflammation of one of his legs. He (Dr. Foulis) thought the child was suffering from torpidity of the liver and afterwards disease of the skin, which, in his opinion looked very like erysipelas. He first gave him some calomel and afterwards a preparation of iron. He did not think the effect of the iron would be entirely opposite to that of the calomel. He did not think there was a wound in the boy's leg at the time he attended him; he did not remember the boy's mother showing him a piece of bone alleged to have come out of the child's leg. When he discontinued his visits there was but very little the matter with the leg; but he was aware that the boy was now obliged to use crutches. The case was a most obscure one; when he first attended the boy he felt certain that his leg was not diseased. Mr. Salomons said it was very painful to have to set up such a defence as he was about to offer, but he should be prepared to prove that the child of defendant not only did not receive any benefit from the services of Dr. Foulis, but that he was grossly maltreated. He should also be prepared to prove that Dr. Foulis stated to the defendant that the bone of the boy's leg was not affected, but that one day, when Dr. Foulis was passing, the boy's mother called him, showed him a piece of bone that had come from the leg, and that he told her he would consider the case and call upon her the next day, which promise, however, he did not keep. Moreover, he should show, from memoranda kept by defendant's daughter that sixteen of the alleged visits set down in plaintiff's bill of particulars were not paid, four of these being the four alleged to have been made in the month of February, during which month defendant would be prepared to swear that Dr. Foulis was not in the se at all. At this stage of the case the messenger returned the memoranda sent for; but, upon examination, it found that some of those required were not among e sent. Mr. Windeyer (who appeared for the plaintiffs) fore asked leave to have the case withdrawn, which done accordingly.

Wiseman v. Murnin.

is was an action by an ironmonger against the mort- e in the assigned estate of Andrew Croshaw, railway ractor. Mr. Croshaw ordered a quantity of bolts, from plaintiff, but plaintiff refused to supply them e he got the authority of the defendant; and having ned what he regarded as an undertaking from the dant, he supplied the goods. Mr. Murnin was ed to for payment, but refused on the ground that he not give any authority to plaintiff to supply goods. Plaintiff then brought his action, made out his claim; but Mr. Murnin his managing clerk, both denied that they gave plain- ny authority to supply the goods. Verdict for de- nt.

asser v. The Hunter River N. S. N. Company.

is was an action to recover the value of a cask of w, which the defendants had refused to deliver to tiff's order, and for damages for its detention. The dants received a number of casks of tallow, consigned ort and Co., and Durham and Irwin—nineteen for the firm, and twenty-six for the second. It was averred nineteen casks were delivered to Mort and Co.'s dray- and twenty-five to Messrs. Durham and Irwin's. plaintiff not having received his cask, which was con- d to Mort and Co., applied for it, but was refused ery on the ground that the nineteen casks consigned lort and Co. had been delivered. One cask was then ining on the wharf addressed to Mort and Co., but the nts of the company refused to deliver it as they stated the nineteen had been already delivered. Defendants' finger went up to Mort and Co.'s, and examined the brought up from the wharf, and he stated that he d nineteen casks there, but not the one that belonged urham and Irwin. Verdict for plaintiff, for whom Mr. eton appeared.

Mooney v. M'Mahon.

Plaintiff claimed £23, the value of a horse lent to defendant on trial in 1861, and alleged to have been never returned by him. Plaintiff averred that he bought the horse in question from Burt and Co. for the amount claimed, and shortly afterwards let defendant's son have a trial of him with a view to purchase. The son was not satisfied with the animal; but plaintiff being under the impression that this arose from insufficient trial, told defendant that he might have him two or three weeks on trial; defendant having then engaged to take a dray-load of goods to Bathurst or Orange, told plaintiff he would take the horse with him, and if he suited him he would pay for him on his return. Defendant took the horse to Orange with him, and now swore that on his return to Sydney, being unsatisfied with the horse from the trial made of him, he returned him to a paddock adjoining plaintiff's place, from which the animal had been taken. Plaintiff however averred that he ever saw the horse afterwards. There was some evidence that the horse was seen in a certain paddock after defendant's return to Sydney, and that he afterwards fell into a creek and died, but there was no evidence beyond the statement of defendant that it was delivered to plaintiff, defendant's son, who it was stated delivered the horse to his owner, having left the colony. Verdict for plaintiff, for whom Mr. Salomons appeared; Mr. Windeyer for defendant.

The jury cases will be taken on Wednesday morning.

## CENTRAL POLICE COURT.

Monday.

Before the Police Magistrate, with Mr. M. M. Cohen.

Thirty-two prisoners (two being remands) were brought before the Court. Of these eighteen were discharged and one, John Neville, was remanded to Melbourne. Neville was on Wednesday last apprehended in this city, believed to be John Fitzroy, for whose apprehension a warrant had been signed by E. P. S. Sturt, of Melbourne, police magistrate, and countersigned by a magistrate of New South Wales, in which he is charged with being "a ticket-of-leave holder illegally at large;" he denied being a prisoner of the Crown. On Thursday he was brought before the Police Magistrate, when Mr. Carroll, for the prisoner, objected to the Victorian Police *Gazette*, produced for the purpose of proving the identity of prisoner and John Fitzroy, that it is not receivable in evidence; that the warrant contained no charge in law; and that if even the prisoner be the person, and if there were such an offence known to the law as that stated in the warrant, it is not an offence for which the prisoner is liable to be indicted, and, consequently, the warrant is of no force beyond the boundary of the colony in which it was issued. His Worship took time to consider the objections, and this morning admitted the first, but overruled the second and third. Evidence was then taken to show that Neville is the Fitzroy of the warrant, and he was remanded to Victoria to be dealt with.

Catherine Kennedy, alias Dunn, was summarily convicted of having, on Saturday last, stolen from the shop of Richard Bailey a pair of boots of the value of 7s. 6d.; and this being her second conviction, was sentenced to be imprisoned three months.

Emily Allen, charged with having stolen a pair of boots, the property of Benjamin Cocks, pleaded guilty, and, being unknown to the police, was sentenced to pay a penalty of 20s., or to be imprisoned one month.

Mary A. Potter and Elizabeth Shields were sentenced to be imprisoned three months, and Sidwell Prendergast and Sarah Dade to be imprisoned one month, as idle and disorderly persons—that is, having no fixed place of abode nor any lawful means of living. One of them said that she was only discharged from gaol on Saturday.

Jane Sullivan was fined £5, or in default to be imprisoned three months; Margaret Donovan to pay a penalty of £2, or to be imprisoned fourteen days, and James Donahue to pay £1, or to be imprisoned seven days, on conviction of having in public places made use of obscene language.

Charles Robinson and Mary Ann Jennings were sentenced to be imprisoned three months for indecent conduct, continued for nearly an hour, in Hyde Park, yesterday afternoon.

Two persons were fined 10s. each for riotous conduct.

On the summons paper were ten cases, three of which were dismissed, other three were postponed, one was withdrawn, one was struck out for want of prosecution, and in one case (Grosch v. Gallagher, for an alleged breach of the Impounding Act) their Worships differed in judgment, and no order was made. In Taylor v. Lincoln, the defendant was found guilty of having addressed abusive words to complainant, and for his offence was sentenced to pay a penalty of 20s. with 5s. 6d. costs, or to be imprisoned seven days.

## WATER POLICE COURT.

Saturday.

Before Mr. E. J. C. North and Mr. T. C. Breillat.

Mary Ann Cusack, 59, charged with riotous behaviour on the South Head Road, was fined 10s.; in default of payment, to be imprisoned for forty-eight hours.

Roster.—Tuesday, 12th, Mr. M. Asher, Mr. J. Caldwell, Mr. M. Metcalfe; Wednesday, 13th, Mr. G. Hill, Mr. J. R. Manning, Mr. E. Raper; Thursday, 14th, Mr. T. Cullen, Mr. J. Oatley, Mr. S. H. Pearce; Friday, 15th, Mr. H. C. Burnell, Mr. A. Campbell, Mr. M. Chapman; Saturday, 16th, Mr. W. Church.

Monday.

Before the Water Police Magistrate, with Mr. N. D. Stenhouse and Mr. J. Williams.

Frederick Evans, 15, and William Gilbert, convicted of using obscene language on the Old South Head Road, were fined 40s. each, or to be imprisoned for fourteen days.

James Gerard and George Richards, seamen of the brig Clarendon, found guilty of disobeying lawful commands, were sentenced to fourteen days' imprisonment.

James Beck, 56, was brought before the Court for protection, having been apprehended about 1.30 on Sunday morning, whilst sleeping under a rock in Kent-street. Prisoner stated that he came from Mudgee, and was paralysed twelve months ago. Discharged.

Thomas Jones, seaman of the ship Sirocco, and Simon Nelson, of the ship Aerolite, were sentenced to one month's hard labour in gaol for desertion.

Edward Nebb, for drunkenness and disorderly conduct on board the Edith Byrne, was committed to gaol for one month.

William Gregery, charged with using obscene language in Bent-street, was fined 20s., with the alternative of three days' imprisonment.

Thomas Stokes was charged with assaulting constable Hickey. The constable stated that when on duty in Clarence-street he met with prisoner, who, without any provocation or interference, struck him three times with his fist. Fined 40s., or to be imprisoned for three days.

Owen Haran was fined 5s. for drunkenness and riotous conduct in George-street.

Michael Husy, for using insulting language towards Mary Wild, was fined 10s. with costs.

John Young was fined 40s, with the alternatives of levy and distress, or seven days in gaol for assaulting constable M'Quade. About 2 30 on Sunday afternoon, the constable found prisoner sitting down in William-street, and he raised him up, when prisoner struck him, and attempted to kick him.

Henry Brown and Fanny Egan, for indecent behaviour in the Domain, were fined 20s. each; in default of payment, levy and distress, or forty-eight hours' imprisonment.

John Jenkins, of Pitt Water, was charged with shooting at George Harris with intent to do him some bodily harm. After hearing a considerable amount of evidence, the further hearing of the case was adjourned to next Tuesday.

## CITY MUNICIPAL COUNCIL.

The usual fortnightly meeting of the City Municipal Council was held yesterday afternoon, at the Town Hall, Wynyard-square. Present—the Mayor (in the chair), Aldermen Oatley, Sutton, Butler, Renny, Hurley, Broomfield, Woods, Mackintosh, Bown, Kippax, Caraher, Watson, and Raphael.

Minutes.

The Town Clerk read the minutes of last meeting and they were confirmed.

Reports.

The Town Clerk brought before the Council reports from the Lighting Committee which recommended the placing of gas lamps at Harris and Union streets, at Fitzroy and Riley streets, and at Ann and Riley streets.

Petition.

Alderman Oatley presented a petition from freeholders and residents in the neighbourhood of Cleveland-street, praying the opening of that thoroughfare.

Petition received, and referred to the Improvement Committee.

Alderman Raphael presented a petition from sixteen residents and storekeepers in Queen's-place. The petitioners prayed for the removal of the fence which had lately been erected across the street, and for the completion of the thoroughfare.

Burial Ground at Randwick.

The Town Clerk read the following:—

Department of Lands,
Sydney, 30th June, 1864.

Sir,—With reference to your letter of the 18th instant, representing on behalf of the Right Worshipful the Mayor that the drainage of certain lands at Randwick, formerly set apart for a burial ground, falls into the water reserve; and suggesting that steps should be taken to prevent the reserve from being polluted by the interment of the dead in the burial ground alluded to, I am directed by Mr. Secretary Wilson to inform you that a communication has been addressed to each of the heads of religious denominations, excepting the Church of England, requesting, with a view to having different sites provided for the purpose, that no interments might be made in that burial ground.

2. It is believed that the portion allotted to the Church of England drains toward the sea.

I have the honour to be, Sir,
Your most obedient Servant,
M. Fitzpatrick.

The Town Clerk.

Botany Water Reserve.

Alderman Renny asked a question respecting Mr. A. Black's application for the use of the Botany water reserve, in which to propagate fish.

The Mayor was understood to say that the matter was still under consideration in committee.

The Sewerage Question.

Alderman Woods inquired whether or not the Mayor had any idea when the Judges of the Supreme Court would give their decision in the cause of the Corporation v. Toogood. The matter was of great importance to the ratepayers of his ward, many of whom wished to construct drains from their properties to the main sewer, but at present hesitated to do so.

The Mayor, of course, did not know when the Judges would give their judgment, but presumed they would write it as soon as they could.

Finance.

Alderman Oatley moved, and Alderman Sutton seconded, this resolution, "That the report of the Finance Committee, recommending the payment of sundry accounts, be adopted." Carried.

Encroachment on the Fort Phillip Hill Reserve.

Alderman Caraher moved, and Alderman Watson seconded, the following resolution, "That a deputation, consisting of the Mayor, Aldermen Oatley, Raphael, Watson, and the mover, be appointed to wait upon the Honorable the Minister for Lands, with reference to the encroachment at the Observatory upon the Fort Phillip Hill reserve." In moving the resolution, Alderman Caraher stated that the Town Clerk had written to the Secretary for Lands on the subject, but had not received an answer. The Observatory reserve was given by the late Government to the Corporation as a place for public recreation, and a promise had been given that it should not be encroached upon. Since then, however, a gentleman had taken possession of a portion of the ground near the Observatory without the consent of the Secretary for Lands or of anybody else.

Alderman Macintosh moved as an amendment, "That a gang of labourers, armed with pickaxes, be sent to the encroachments and ordered to take them down." The deputation proposed was a most respectable, though he thought not at all a pugnacious body, and would therefore, perhaps, not be so suitable as the deputation he proposed. The Council had acted in a similar way by pulling down Lassetter's window some time ago, and the Government was not deserving of more respect than was shown to private persons.

Alderman Woods seconded the amendment, and, in a subsequent speech, remarked that he did so in order that the matter might be discussed, and not with a view to having it carried out. The amendment and the resolution were in his opinion equally ridiculous.

Alderman Oatley spoke of the impropriety and illegality of the proposal made by way of amendment. He knew that the matter was being fully considered, and when the deputation waited upon the Honorable the Minister for Lands, the thing would be satisfactorily explained. He understood that it was stated that there were some valuable instruments at the Observatory which, it was feared, the public might injure. He had spoken to Mr. Secretary Wilson on the subject. He trusted that the Council would not consent to pass the amendment.

Alderman Watson had every confidence in the justice of the Government, but the people living at the northern end of the city had great reason to complain now that their only place of recreation was taken from them. The Astronomer complained about his instruments; but there was a great quantity of soil and manure placed there, apparently not for the protection of instruments, but for the planting of trees. A vast number of the citizens had complained to him of the encroachment, but they had every confidence that the Minister for Lands would redress the grievance which they felt most severely.

Alderman Sutton deprecated the use of physical force. The amendment was unconstitutional and unnecessary.

The amendment having been withdrawn, the resolution was unanimously agreed to.

Pottinger-street.

Aldermen Caraher and Watson respectively moved and seconded the next resolution, which was carried, "That the report of the Improvement Committee, received on the 27th ultimo, recommending that the retaining-wall in Pottinger-street be re-built, and wooden kerbing laid, at a cost not exceeding £40, be adopted."

Chisholm-lane.

Alderman Renny moved, and Alderman Raphael seconded, the next motion, which was, "That the report of the Improvement Committee, received on the 18th April, recommending the pitch-paving, &c., of Chisholm-lane, at a cost not exceeding £27, be adopted." [Chisholm-lane leads out of George-street, and runs along between Dalton's and a chemist's shop.] The resolution gave rise to some discussion. The resolution was supported by the proposer and seconder, on the grounds that no money had been expended on improvements to small lanes in Bourke Ward; that the lane was badly in need of repair, and that the proposed improvements would be a great convenience to people the rear of whose premises opens into the lane. The rest of the Aldermen appeared to be strongly opposed to the proposed expenditure, and some of them said that Chisholm-lane was merely a "blind lane," leading to Messrs. Scott, Henderson, and Co.'s warehouse.

Alderman Watson moved, and Alderman Caraher seconded, the following amendment, which was agreed to, "That, until Chisholm-lane be dedicated by the proprietors to the public, the council do not expend any money on it."

Gateway Approaches.

The following resolution, proposed by Alderman Raphael and seconded by Alderman Renny, was approved, "That the report of the Improvement Committee, received on the 27th ultimo, recommending that the gateway approaches, on the west side of Pitt-street, between King and Hunter streets, be pitch-paved, at a cost not exceeding £26, be adopted.

Alderman Hurley proposed, and Alderman Renny seconded, "That the report of the Improvement Committee, received on the 27th ultimo, recommending that the gateway approaches in York-street, between Market and Barrack streets, be pitch-paved, at a cost not exceeding £60, be adopted."

Carried.

Alderman Oatley moved, and Alderman Sutton seconded, "That the report of the Improvement Committee, received on the 27th ultimo, recommending that the gateway approaches on the east side of Pitt-street, between Liverpool and Campbell streets, be pitch-paved, at a cost not exceeding £50, be adopted."

Agreed to.

Alderman Woods was the proposer, and Alderman Broomfield was the seconder of the following: "That the report of the Improvement Committee, received on the 27th ultimo, recommending that the gateway approaches on the west side of George-street, between Bathurst street and the Railway Bridge be pitch-paved, at a cost not exceeding £100, be adopted."

Approved.

Erection of Gas-lamps.

Alderman Hurley moved, and Alderman Renny seconded, "That the report of the Lighting Committee, received on the 27th ultimo, recommending the erection of a lamp in York-street, between King and Market streets, be adopted."

Assented to.

The next two resolutions were proposed by Alderman Kippax, and seconded by Alderman Caraher—"That the report of the Lighting Committee, received on the 27th ultimo, recommending the erection of a lamp at the corner of Burton and King's lanes, be adopted.—That the report of the Lighting Committee, received on the 27th ultimo, recommending the erection of a lamp at the corner of Goulburn and Brisbane streets, be adopted."

Affirmed.

Aldermen Butler and Sutton submitted the next resolution—That the report of the Lighting Committee, received on the 27th ultimo, recommending the erection of a lamp in West-street, be adopted."

Agreed to.

Cooper-street, Goddard's-lane, Foveaux-street.

Aldermen Kippax and Caraher brought forward the three following resolutions, which were assented to:—"That the report of the Improvement Committee, received on the 30th May, recommending that Cooper-street, between Riley and Little Elizabeth streets, be formed and ballasted by contract, be adopted."—"That the report of the Improvement Committee, received on the 27th ultimo, recommending that Goddard's-lane be formed and ballasted, at a cost not exceeding £36, be adopted."—"That the report of the Improvement Committee, received on the 30th May, recommending that Foveaux-street, between Crown and Riley streets, be formed and ballasted by contract, be adopted."

Forbes-street, Victoria-street, Burraphore-lane.

The works mentioned in the subjoined resolutions were directed to be carried out on motions made by Alderman Butler, and seconded by Alderman Sutton:—"That the report of the Improvement Committee, received on the 30th May, recommending that Forbes-street, between Burton and Liverpool streets, be formed and ballasted by contract, be adopted." "That the report of the Improvement Committee, received on the 30th May, recommending that Victoria-street, between Burton and Liverpool streets, be formed and ballasted by contract, be adopted." "That the report of the Improvement Committee, received on the 27th ultimo, recommending the ballasting and kerbing and guttering of a portion of Burraphore-lane, at a cost not exceeding £48, be adopted."

Rutland-street, Hennessey's-lane.

Alderman Oatley and Sutton respectively moved and seconded the carrying out of the improvements stated in the next two resolutions: "That the report of the Improvement Committee, received on the 30th May, recommending that Rutland-street be formed and ballasted by contract, be adopted." "That the report of the Improvement Committee, received on the 30th May, recommending that Hennessey-lane be formed and ballasted by contract, be adopted." Carried.

Fowler-square, Cecil Lane.

The two next resolutions, proposed by Alderman Woods, and seconded by Alderman Broomfield, were also agreed to: "That the report of the Improvement Committee, received on the 27th ultimo, recommending that Fowler-square be pitch-paved, at a cost not exceeding £30, be adopted." "That the report of the Improvement Committee, received on the 27th ultimo, recommending that Cecil-lane be formed and pitch-paved, at a cost not exceeding £28, be adopted."

Tenders.

The Council then resolved itself into committee, for the purpose of considering the tenders for the construction of a night-soil pit; the formation of Hill-street, Underwood-street, and Riley-street.

Thomas Moon's tender, £244, was accepted for the performance of the first work. Fresh tenders were ordered to be called for the formation of Hill-street. The tenders for the formation of Underwood-street were ordered to stand over for a fortnight, and for the formation of Riley-street, John Brown's tender at £256 was accepted.

The Council resumed, adopted the committee's report, and afterwards separated.

## MR. HARGRAVE ON LAW STUDIES AND LEGAL EDUCATION.

Lecture IX.

Yesterday evening, Mr. Hargrave—Reader in General Jurisprudence of the University of Sydney, and late Attorney-General of this colony—delivered at the Supreme Court his ninth lecture on "The Studies and Education of the Legal Profession." The chair was occupied last night, as it was on the 4th instant, by Mr. Duffell, the Master in Equity.

The lecturer commenced by dividing his consideration of "Equity" (in this and the next lecture) into two branches, viz.: First, as developed in the history of the equitable *Jurisdiction, Pleading*, and *Practice*; secondly, as now in practical operation among us, by the *Equity Statutes and leading cases*.

With reference to the first branch of the subject, the lecturer called attention to the deep foundations of natural law on which the original equity jurisdiction was founded; and the very cautious and safe progress by which this department of our administration of justice had been built up and gradually established through a long course of ages, always advancing with the national progress, and keeping pace with our social and commercial requirements. To explain this more intelligibly, a short retrospect of the administration of equity from our earliest records was necessary. The lecturer then narrated how in the Anglo-Saxon period, as described in Turner's Anglo-Saxons, Kemble's Saxons in England, and Pearson's Early Ages of England, the direct and immediate interference of the clergy in the administration of justice, especially by the Bishop always sitting with the ealderman, or schireeve, on the judicial bench, and the general diffusion of all civilization only through the medium of Christianity, necessarily caused the equity jurisdiction to be more or less identical with all legal jurisdiction. By the Norman Conquest a new class of ecclesiastics were introduced, who, partly by their spiritual baronies and other matters in which they formed essential and powerful portions of the general feudal system, and partly by their claiming for themselves a separate and independent jurisdiction, as representing the sovereign Pontiff of Christendom, and partly also by their strenuous efforts to introduce the Roman civil law in exclusion of the old common law of the Saxons, rendered the simple equity jurisdiction almost extinct, the Chancellors being always bishops or high ecclesiastical functionaries. The common law judges, however, exerted themselves to give as much expansion as possible to the technical rules of the common law, so as to assist the national progress; but the strict rules of the common law, and the well-established maxim that judicial discretion cannot depart from the plain words of the legislature were very wholesome restraints on the administration of justice during all the ages before the English Reformation. During that period the most graphic description of our equity jurisdiction and its pleadings and practice, was contained in the first volume of Lord Campbell's Lives of the Chancellors, from which the lecturer read several extracts explanatory of the theory and operation of this branch of the administration of English justice. Also referring to Mr. Sidney Smith's Principles of Equity as to the important Statute of Westminster, the 2nd (13th edition, I c. 24) the intention of the writ of subpoena and the cessation of Royal interference in the administration of justice. The lecturer then described the change introduced by the statutes of uses and wills, as to our property law, the appointment of laymen as Lord Chancellors and the more exact apportionment and re-arrangement of all judicial jurisdiction between the Common Law Courts, the Court of Chancery, and the Ecclesiastical Courts. The chief points of these several jurisdictions were then discussed and explained. The period of the Stuart Dynasty was altogether unfavourable, both to law and equity. The efforts made to set up the so-called "Divine Rights" in the Star Chamber and High Commission Courts, who claimed even a sort of equitable jurisdiction in criminal matters, the re-appointment of "ecclesiastics" as Lord-keeper of the Seals and to other high political offices, and many other illustrations of this chaotic period in our history, were cited by the lecturer as explanatory of the progress of equity jurisdiction and deserving the most attentive consideration of the law-student. Since the expulsion of the Stuarts and the recognition of judicial independence by the Acts of Settlement, the progress of the Equity Jurisdiction in adapting itself to the requirements of the English nation in family trusts, commercial jurisprudence, and all the other usual matters of equity, were traced through the Chancellorships of Lord Nottingham, Lord Hardwicke, Lord Thurlow, and Lord Eldon; the result of the continuous labours of these great lawyers having been to establish and define a clear code of equity jurisprudence, which might be most conveniently classified and arranged under the following eight heads of jurisdiction, viz.:—

I. The residue of the old Common Law Jurisdiction of the Chancellor, representing the Royal prerogative as *Parens Patriæ*, in all questions relating to *Infants, Charities, Lunatics*, &c., and other special matters.

II. The elaborated equitable jurisdiction as to the following matters, viz.:—

1. Trusts of all real estate under the statute of uses, including all wills and settlements where the legal estate is separated from the beneficial enjoyment, and the legal owner amenable only to the subpoena jurisdiction in equity.
2. All matters of account as executors and administrators' accounts, all trusts of personalty, and wherever any liability at law would expose a fiduciary person to a multiplicity of actions at law.
3. Equity relief *against* strict legal rights, as partnership accounts, principal and agent, mortgage accounts and bills to foreclose or redeem.
4. Equity relief *in aid* of legal rights, as discovery in aid of actions at law, the appointment of receivers, and injunctions during actions to try rights at law, preservation of evidence, or subject matter of actions.
5. Specific performance of contracts where damages at law for non-performance would be insufficient, specific performance of contracts of settlement, or other deeds, and delivery up of specific articles or chattels.
6. Frauds of an inequitable nature, and for which sufficient relief was not attainable by any action at law.
7. Miscellaneous jurisdiction, as bills for assignment of dower, for partition of lands, interpleader, &c., &c.
8. Statutory jurisdiction, as in matters of bankruptcy and other topics upon which the *legislature* had conferred the jurisdiction in the Chancery Courts.

The lecturer then proceeded to describe the pleadings and practice of a suit in Equity before the recent statutory reforms under King William the 4th and Queen Victoria; as to any of the several eight matters of equity jurisdiction already mentioned, and assuming all parties to have been amicably disposed towards each other, and only desirous of obtaining the simplest form of protection against future litigation, and a judicial construction of any points of Equity which arose in trust matters where infants and other persons *non sui juris* might be interested. The cases of Low v. Carter, and Knatchbull v. Fearnhead, in Myl. and Cr. Reports, before Lord Chancellor Cottenham were cited as illustrative of the responsibility which executors and trustees incurred in the simplest transactions, when acting without the protection of the Equity jurisdiction.

The more enlarged pleadings, and the great delays of a chancery suit of "full dimensions," and between hostile parties, were then described, with all their long succession of demurrers, pleas, answers, amendments of bills, answers to amendments, exceptions to answer, master's report on exceptions, exceptions to master's report on exceptions, hearings before the Court, replication to answer, evidence, interrogatories, publication, hearing on the merits, decree by the court, and declarations of right and title with references to the master to take accounts after making "preliminary" enquiries—with all the "episodes" of appeals to the Court of Appeal on all points of importance, motions for injunctions and receivers, and various other proceedings in Equity, the pleadings and practice in which matters were described by the lecturer.

The various statutory reforms, both in England and in this colony, whereby all chancery pleadings had been shortened and simplified so as to be capable of adaptation to general usefulness at a great reduction of cost and at great shortening of the times of procedure, were reserved for next lecture. The consolidated standing rules of our own Supreme Court made on July the 4th, 1863, were also explained as effecting great improvements in all equity matters of pleading and practice. The general intention and object of these rules and orders were stated to be:—First, that reasonable time and intervals of procedure should be allowed to each party, according to the importance of the facts alleged or complicated of the accounts to be taken, or the number of parties to be brought before the Court, previously to any decree or order being made; secondly, the reduction of unnecessary pleadings, and repetitions of inquiry, or multiplication of appeals on immaterial points. The lecturer concluded by explaining the general intention and effect of the modern rules of practice as to equity suits.

## WINDSOR.

[From our Correspondent.]

Flood Relief.—The committee meetings are well attended, and much earnestness is shown in endeavouring to get through the work in a satisfactory manner. Several names have been added to the committee, and the list of contributions increases in a most gratifying manner. On Friday a list of about 130 cases of families—probably representing nearly 600 persons—were gone through as having suffered by the flood, and whom it was desirable to relieve. No definite plan of distribution of the funds has yet been fixed upon. The advertisement by the Sydney treasurers, as to granting seed wheat, oats, and barley to cultivators requiring the same, was the subject of considerable discussion, and some of the members of committee were favourable to an immediate application being made to the Sydney committee for a supply. However, it was determined to ask for whatever share of the money would be appropriated to our own district by the Sydney people (the committee preferring to purchase whatever seed might be deemed desirable themselves); and the secretaries were directed to write to the Sydney committee accordingly. It was further resolved that 300 bushels of wheat and 800 bushels of oats should be purchased for immediate distribution. Mr. Walker resigned the office of one of the secretaries. He was thanked for his past services, and the other secretary, Mr. Dean, was authorised to procure whatever clerical assistance he would require for the discharge of his arduous duties. A third distribution of clothing took place to-day at the Church of England schoolroom. The applicants were numerous, and the whole of the clothing on hand was disposed of. It is understood that the ladies have now wound up their charitable proceedings in this respect. Too much praise cannot be awarded them for the zeal they have shewn in their labours of love. A distribution of blankets took place at the court-house.

Alarm of Fire.—About nine o'clock on Saturday morning, an alarm was raised of a fire having broken out on the premises occupied as Mr. Alderson's boot and shoe warehouse in George-street. The Volunteer Fire Brigade were quickly at the spot, but their services were not particularly required, as the fire fortunately was confined to the chimney, and no great danger was apparent. However, the brigade were determined that no fault should be found with them, so the engine was at once put into working order, and a supply of water being obtained, the wall was scaled in a most expeditious manner. Some little difficulty was experienced in conducting the pipe so as to convey the water down the chimney, but this was soon overcome, and the fire in a short time extinguished. It can hardly be said that our brigade have yet been called into real action, but from the ability and smartness they manifest in their management of the engine, &c., there is every reason to believe that they will render valuable assistance indeed should ever a fire of any extent break out.

The weather is delightfully fine at present, and it is pleasing to see that our farmers still live in hope, and many of them are again busily engaged in preparing their land for seed.

Heavy Find of Gold at the Fountain Head Reef.—The Lachlan Correspondent of the *Orange Guardian* writes on the 6th instant, as follows:—The most interesting item on this field has undoubtedly been the find of gold to-day in the "Rise and Shine" (Fountain Head Prospectors). Out of what may be fairly called a dishful of dirt, a large quantity of gold has been taken, but how much I am not in a position to state with accuracy. It consists of quartz specimens, containing much more of the precious metal than of stone, and resembling, to use the words of one gentleman who examined them, a number of pieces of quartz, connected together by a massive gold chain. As the gold has not yet been separated, the exact quantity cannot be stated; but it is variously estimated at from thirty to forty ounces.

The Projected Crane at Newcastle.—The preparations for the long talked of and much needed crane, have proceeded as far as cutting up the flooring of the wharf, for the purpose of putting in the stone foundations, and thus the work remains. No further progress can be made, it appears, without the aid of the diver, and this [illegible] desiderated and amphibious auxiliary has not yet [illegible] up.—*Newcastle Telegraph*.

## CRIMINALS AND JURORS.

*To the Editor of the Herald.*

Sir,—I have read with great satisfaction your able leader, in this morning's issue, on the trial of Gardiner and its result. In your conclusions I entirely concur. But there is a report current which is opposed to one of your statements as to fact.

You congratulate the country—and very naturally so—upon the assumed fact that, of the twelve jurymen almost chosen by the prisoner from the panel, "not one" was for total acquittal. But it is reported—I hope untruly—that there was *one* so disposed. Also, that of the remaining eleven five were for convicting Gardiner of the capital offence, and six for wounding with intent to do grievous bodily harm; and that the verdict to the latter effect was arrived at by submission to the voice of the majority. It seems scarcely credible that men should so violate their solemn oaths to "find a true verdict according to the evidence," i. e., according to their own conscientious view of it. But we know that queer things *have* taken place in a jury room. And the peculiar form in which the jury announced their verdict—"that they had 'agreed to find' a verdict of guilty under the second count"—has been not unnaturally regarded as confirmatory of this report. If it be false, it would be well for some of the jury to contradict it.

While on this subject there is another fact to which I may as well draw your attention. Not many days before Gardiner was placed on trial, a small pamphlet was industriously circulated, which purported to be a defence of the colony against the attack in the Melbourne *Argus* which followed this man's acquittal from the charge of wounding Middleton. But it was really a defence of Gardiner himself. This specious production was freely scattered. It was even given away indiscriminately to visitors at the theatre. It purported to come from the hand of "a New South Wales Juror," but if it was really written by a juror, which I doubt, he was clearly most unfit to be trusted in the jury box. And it is a pity that his name was not attached to the paper, so that people might be warned against him. While he attempted to justify Gardiner's acquittal upon the ground that the jury could only base their verdict upon the evidence adduced, and that this was insufficient, he quoted a number of assumed facts in such justification which were not before the jury at all, and of which they had no right to take the slightest cognisance. In short, this pamphlet was evidently circulated with but one object—that of prejudicing in favour of Gardiner those who might be likely to sit as jurors in his case, or who might exercise an influence over others so sitting.

In connection with this effort I have heard, in common with another correspondent of yours, that means were taken to "canvass" those who were on the panel. And I cannot but see that the numerous challenges which followed may have been the result of such a canvass.

Is there no way of punishing men who thus attempt to corrupt the administration of justice at its very source?

It has also been confidently asserted that attempts were made to tamper with witnesses for the Crown, and that the Attorney-General has intimated his intention to prosecute two persons for this offence. If it be true that there has been any such attempts the prosecution will be but a matter of strict duty. The character of the colony has suffered by a charge of sympathy with the cowardly ruffian who was convicted last Friday, when such sympathy has in fact been entertained but by a few. But the efforts of this minority in the cause of their "hero" have been so strenuous and systematic, that they have placed, as many said, their "stamp" upon the non-sympathising but comparatively silent majority.

I am, &c.,
STEEL PEN.

Sydney, 11th July.

## IN RE FRANCIS GARDINER.

*To the Editor of the Herald.*

Sir,—Will you allow me to express briefly my opinion of the verdict of the jury in Gardiner's case on Friday last.

Had they found the prisoner "not guilty" on both counts I could have understood that they had *some doubts* as to whether he was justified or not in firing at Hosie; but they acknowledge by their verdict that he *did* fire *unwarrantably*, and yet deny that he *intended* to do *murder*. I would ask them, if a man put poison into another's food, what is his object? To do grievous bodily harm! When a man aims a pistol at another's head and fires, what is *his* object?—to do grievous bodily harm? We cannot be certain of another man's *intention*, except so far as the *facts* of the case warrant us in being so; but when these facts all point to *one* conclusion, we *should* arrive at that conclusion.

"Providence alone," as the Chief Justice remarked, "turned the bullet of Gardiner from its course." How, twelve men, *Englishmen* of the 19th century, can have come to the conclusion that it was Gardiner's *intention* it should do so I cannot conceive. As the jury have only the *evidence* to draw inferences from, I would ask them what *evidence* there was—what *remote possibility* was there that when Gardiner fired his revolver at Hosie's forehead he merely meant to wound him? Did he think Hosie's skull so *thick* that a bullet could not penetrate it? *Possibly* it *may* be so, but then *he* could not have known it.

Yours respectfully,
JUSTITIA.

Sydney, 9th July.

## PREVENTION BETTER THAN CURE.

*To the Editor of the Herald.*

Sir,—As an alien I crave to ascertain through the medium of your didactic columns whether the New South Wales code of laws permit the wholesale exposure of goods outside shops with impunity.

Passing through George-street last night, I beheld a great crowd against a boot and shoe establishment, I naturally went up to see the cause of it, thinking it to be some enthusiastic disciple of Gardiner, haranguing upon the expediency of calling a monster meeting to get his well-earned sentence mitigated, but, instead of an orator on the condign punishment of "one of the most determined scoundrels in all Australasia," I found that a young and apparently respectable girl was detected in the act of helping herself to a pair of shoes from a perfect labyrinth of them that hung outside. She was there and then handed over to the police, and consigned to a felon's cell, perhaps to herd with vice and crime.

Now, Sir, such depredations are of daily occurrence; they can be easily prevented, if shopkeepers were but to keep their goods within the precincts of their establishments. Surely none of us are so immaculate as to be exempt at all times from the evil influences of the tempter. This girl, for aught we know, might have borne hitherto an excellent character—would, perhaps, if it were not for this indelible stigma upon her name, have proved a useful member to society; instead of which, through a defect in her moral training, she is "at one fell swoop" whirled into the very jaws of felony, her future prospects in life blasted, and causing shame and anguish to her kin and kindred.

I recollect some few years ago a similar case to this was brought before the Lord Mayor of London, wherein his Lordship expressed himself in strong terms upon the "baits held out to frail humanity," and wishing it were in his power to apportion an equal amount of punishment to the prosecutor as he did to the delinquent.

I am, Sir, your most obedient servant,
THADDEUS OF WARSAW.

George-street, July 10th.

The Wentworth Mines.—The prospects of the past week have been of the usual good average quality, and a few of more than ordinary richness have been washed. The Phœnix mill got to work again on Monday, and are now busy crushing some stuff from their newly discovered surface lode. If the result is equal to the appearance of the dirt a large quantity of gold may be expected when they wash up. The Sawyers have gone into the higher levels, and have cut a fresh leader, from which some excellent prospects have been washed. A leader, showing a fair prospect, was cut on Thursday in the highest level, and the indications are so good that the party are sanguine a rich patch exists in the neighbourhood of their new discovery. In the Hard-to-Find a prospect was raised on Thursday, showing an ounce to the bucket; a small quantity of good dirt from the forty feet levels is being put into the paddock, and to all appearance is equal to former dirt raised from this claim. The rich leader in the Industry Rewarded has dipped into the old workings which are now full of water, consequently before following it up the party will have a considerable amount of bailing to do; the last parcel of dirt raised from it showed no falling off in richness or quantity. The Morning Star party have again touched their old leader, which is much narrower than at the spot where it was first discovered. The dirt, however, is excellent and looks well in the paddock. Norrie's party are working three leaders at a depth of 115 feet, all of which are highly productive, as shown by the large quantity of stuff in the paddock. It is evident that the shareholders of this claim are to have a profitable reward for their long-continued perseverance and expenditure of capital. Stewart's claim is turning out exceedingly well. A prospect washed on Saturday gave ninety ounces to the bucket. They are now raising any quantity of dirt, that is expected to yield at least 9 to 10 lbs. to the ton; this splendid sample was obtained from the rich leader in the sixty feet level. They are following another nearly as rich which trends to the north-east at a depth of 75 feet. In the Crinoline claim they are down about 115 feet, but have met with no particularly rich prospect; they mean to open out at that depth to see what the ground is like before operating further. A small quantity of dirt washed on Wednesday, from a small leader, gave a show at the rate of 5 ozs. to the ton; what it will ultimately yield cannot be guessed, as, until they cease sinking, a fair trial of the stuff will not be made. Walsh's are getting good prospects from a depth of 70 feet from the old leaders, which they have succeeded in striking again. The indications are promising, and come up fully to the expectations formed of the ground. It is believed that an extension of their workings will lead to a brilliant result. A small quantity of very peculiar looking stone was raised during the week, and submitted to close examination; it is thought it will yield over 5 oz. to the ton. In Spicer's, matters are about the same; an average quantity of gold-dirt is raised from week to week, and the continuance of this steady yield more than makes up for the absence of very rich finds. The Homeward Bound new shaft is being rapidly carried through the bluestone, and the proceedings of this company are watched with the liveliest interest by all, as it is generally believed that they are sinking in the right place. From Milburne's to the copper claim all hands are industriously sinking, and some will soon be through the rock. The late discovery in Milburne's claim has given an impetus to the work in other claims beyond, that will, if the gold be in the ground, soon bring it to the surface. In some of these claims very promising indications have been cut into.

The Mount Pleasant Diggings.—The other day we paid a visit to these diggings. The prospectors, Edwards and party, have been engaged during the week in putting in a drive in the hill shaft which we mentioned as having been bottomed last week, and in tunnelling still further into the face of the embankment rising from the creek. They have also stripped down a few yards of the bank close to the last-mentioned drive, laying bare a quantity of washing-stuff, which has yet to be knocked up. In the creek drive, finding the top soil exceedingly hard, they have commenced to tunnel through the granite which proves to be sufficiently rotten and soft to admit of being worked with comparative ease. They have washed nothing during the week, but commence to clear up to-day, having provided themselves with plenty of water by damming the creek, so as to form a sluice in which to work a tom. There are in all seven other parties on the field, but success does not seem to have crowned their efforts at present, though they have all met with "the colour." One party of four have worked out a claim to the south of the prospectors, and are going to work night and day in putting down their shaft. The desire to profit by the auriferous discovery has produced something novel in mining experience. During the week a female has signalised herself by commencing operations with a cradle in the bed of the creek. She has rocked the cradle from morning to night with an industry worthy of better reward than, we are sorry to say, has fallen to her share, though some of the gold she has washed out is particularly rough in appearance.—Saturday's *Bathurst Times*.

ARRIVALS.

July 7.—Lion, from Sydney; Atlantic, from Melbourne.

THE SANDWICH ISLANDERS.—The health officer, Dr. Hobbs, yesterday, visited the schooner Uncle Tom, for the purpose of examining the sanitary condition of that vessel. On his return to Brisbane last night, we were kindly furnished by him with the following particulars:—The schooner Uncle Tom, 166 tons, Captain Leonard, left Tanna, one of the New Hebrides, on the 17th June, and arrived in Moreton Bay on the 5th instant, with fifty-four natives of the South Sea Islands, imported for Captain Towns' cotton plantation on the Logan River. Of this number, twenty-six are from the Sandwich Islands, twenty-three from Mier, or Three Hills, and five from Tanna; they are principally young men, healthy, able-bodied, and remarkably clean in their appearance. During the voyage there was no sickness amongst them. The vessel, of course, received a clean bill of health, and in a few days they will be conveyed by steamer to Captain Towns' plantation.—*Queensland Guardian*, July 7.

## TUESDAY, JULY 12, 1864.

We shall not impute to the persons who were entrusted with the preliminary steps in the prosecution of GARDINER, an intention to screen him from the consequences of his crime, because we do not believe it existed. We cannot, however, but perceive that he has been most fortunate.

We propose to point out in this article how everything has been set in hostile array against public justice—whether in design or through inadvertence—whether by the perversion or the abuse of the law—whether by the failure of jurors to perform their obvious duty or by the stumbling-blocks cast in their way in its discharge. All has just tended to one issue, and could any colourable excuse have been discovered to set this man free he would doubtless have been in a condition to resume his former course at his earliest convenience.

It now turns out that his escape on the first trial might be ascribed to serious omissions in getting up the case. The Chief Justice pointed out a law which has evidently been quite overlooked in this and similar transactions—the 3rd Wm. IV., No. 3 sec. 12—by which any convict appearing in arms while out of custody, or a ticket-of-leave, is *ipso facto* guilty of felony, and may be arrested upon sight by any constable as in any other felony. Had this fact been proved at the beginning, probably the first verdict would have been more in harmony with justice. It was perfectly easy to have shown that GARDINER was a convict illegally at large, as well as in arms, and thus have removed any presumption that, in resisting the constables, he thought he might be resisting bushrangers. Another great advantage which he enjoyed we have already referred to. In his confessions at the close of his trial, and his appeal to the SUPREME JUDGE, he alleges his reform. But the very money which had procured for him the able counsel by whom he was defended was probably the proceeds of robbery,—at all events it ought to have gone to the persons to whose pillage he confessed. But these professions of repentance and reform come with ill-grace from a man living in adultery with another man's wife, and who set up in business on the proceeds of a campaign from which many thousands of pounds accrued—whatever became of them.

The law gives to a prisoner the right of challenge. By the old law of England the Sheriff could summon whoever he thought proper as jurors. The power of the Crown therefore was such as to render it requisite that a large discretion should be allowed in challenges. In England at the present time the panel is seventy-two; but to diminish the pressure of trial by jury on the people, our panel is only forty-eight, and practically about forty; in this instance there seems to have been thirty-three present when their names were called. So that while in England the prisoner may challenge twenty out of seventy-two, he may here practically challenge one-half of the panel. Thus, the prisoner challenged sixteen and the Crown challenged five, and at the close a jury could not be made up except by going back to the challenged of the Crown! Those friends of order and justice who were in Court saw how the right of challenge could be perverted. If any man appeared looking more respectable than another, or whose character was thought to be too reputable to be trusted, he was immediately challenged. That there was not scope for a jury entirely in harmony with the defence may, we trust, be taken as a sign that society is not wholly gone. But this abuse of challenge must be met by an enlargement of the panel in all cases where any bad influence can be imagined, or by taking from the special jury list, men whose position in life may guarantee their sympathies on the side of order and law. No discretion is allowed in the selection, according to the present system. This, indeed, takes the jurors alphabetically; and every one must be aware that there are cases when this would be unfavourable to the even administration of justice. The initials of names are often indicative of nationality and clanship, and not unfrequently bring together several of the same household. Where no passion or prejudice operates, a similarity of name and origin may import nothing into the case inimical to equity. But it is against these liabilities that artificial arrangements are made, and it is certainly unfortunate when they turn out to be adverse to the desired end. We can have no doubt whatever that the discussions out of doors, and the influence brought to bear upon the general population, took from the late jury something of its independence. They felt that an active and a bitter spirit was arrayed against justice. The tendency, too, of much that has appeared in print has been equally inimical to the law. The perpetual abuse of the constables—the joy at their defeat—the apologies for the violence inflicted upon them of which we have seen so much—has enfeebled the moral sense of many even of that body from which jurors are commonly taken. On the other hand, a sense of equity has kept silent those who might have counteracted this mischief. An honourable Press abstains from suggesting a presumption against the prisoner yet untried. It permits all kinds of mischievous influences to pass unnoticed and uncensured lest by exposing them there should be the slightest warp against the accused. We have felt in the course of these trials the great inconvenience to which society is exposed in preserving those very rules which natural justice seem to have suggested for the protection of the innocent, but which, like everything else, may be turned into a curse by a corrupt journalism acting on a base population.

Unfortunately many of these criminals have been connected with long established families, and have, therefore, in various forms, had access to those to whom is confided the question of guilt or innocence. Certainly, had they not been so connected, not one-tenth of the effort would have been made to vindicate or to rescue them. That very state of society which all have deemed desirable, the establishment and consolidation of families, may thus be converted into a danger, if family life itself is poisoned by crime. The social connections of an accused person ought always to be available in his protection up to a certain point, namely till his guilt is clear. It is a presumption in his favour that he has been surrounded by those fences which protect so many from a devious course. But the abuse of this family influence has been manifest to a deplorable extent, and, indeed, forms the dark feature of all these cases—one at which every patriot must sicken, because for everything else he might find a remedy. It is not unimportant that these facts should be considered. They should be laid to heart. We see how all things, legal and social, devised or conceded, for the defence of the weak and for the protection of the accused are converted into a powerful engine for the shelter of the wicked, and for the defeat of justice and law.

The verdict pronounced in the case of GARDINER is, we understand, really a concession. There were on the jury, as might be expected, some who were willing to acquit, and who would have glowed with delight at repetition of that applause which has echoed through all the colonies, and will reach Great Britain as a testimony against us. There were others who felt the gravity of the case, and were prepared to have done justice to society, without regarding the fate of the prisoner. It was a compromise we suppose under such circumstances common—whether strictly admissible or not—which placed the prisoner so far at the discretion of the Court. When, however, we look how the jury list is made up, and when we learn from common report that a systematic though disguised canvass was carried on throughout that list to ascertain opinions and tendencies—when we recollect also that every sort of social influence was set in motion to defeat the ends of justice—it is something to be able to say at least that there is a weight of evidence which no jury could throw off; that there are crimes that none can be found bold enough to vindicate, and that if justice is not thoroughly satisfied in the verdict at least we have not the disgrace of an absolute acquittal hailed by popular acclamations.

When, however, we speak of the populace, let it be distinctly understood that we are not including in this case *the people*. We refer to that class, too numerous indeed, whose prominence and activity in all cases of the kind give them an apparent title to represent the public. Until some demonstration shall be made that may efface former demonstrations in favour of crime, we must bear the stigma as best we can; and the world will be entitled to mock at our impatient efforts to distinguish between those who vindicate and uphold the law and those who trample it under foot. It is quite time—in the interests of morality, of our family reputation, and of our commercial interests—that we should throw off this incubus and stand up in the ordinary garb and spirit of an English people.

IT will be readily admitted by all who been familiarly acquainted with the different localities of the city, that Sydney has been greatly improved during the past few years. The discussions that have frequently taken place through our columns and elsewhere, and in the reports of the Health Officer, have by no means been in vain, and though the recommendations have not been all attended to, the continuous presentation of formal statements directing special attention to the abuses that remain unremedied has not been without a salutary influence. Many defects have been remedied, and in many localities where improvement was much needed, there has been a very perceptible increase of superficial cleanliness. By-ways have been rendered less noisome, and many back lanes formerly in a very discreditable state have been metalled and guttered, and made as presentable as the nature of the hovels on either side will permit. These improvements are creditable to the Corporation, which on the whole does its work very efficiently. It is clear, however, from continuous representations of the Health Officer, it has been vividly pointed out by the gentleman who has described in these columns his rambles through Sydney, and it will be still more evident to all who will take the trouble to make a personal inspection of the localities referred to, that very much yet remains to be done before the work of purification is completed. And it is also equally evident that a satisfactory result can never be achieved until the scheme of underground drainage is fully carried out. And of this there seems the less prospect, because no definite progress is being made towards its realisation. The one black spot in the administration of the City Council has been its want of firmness and straightforwardness in dealing with the sewerage rates. The evil effect of this mistake has been twofold. In the first place, it has unnecessarily embarrassed the finances of the Corporation, by shutting off a revenue that was not only legitimate, but that was absolutely necessary to meet obligations that had been incurred; and in the second place it has made it difficult for the Corporation to continue the much needed works for completing the drainage of the city.

The works, so far as completed, have been uniformly reported on as efficient for the purpose for which they were intended, and their utility is appreciated both by landlords and tenants. Unfortunately, the major portion of the work was carried out at a time when labour and materials were excessively dear, and proved proportionably costly. The work was designed and determined upon before the sudden rise in the price of labour which was caused by the discovery of gold. It would have been better, no doubt, had the expenditure been postponed till a later period; but that is an error which cannot now be remedied, and it was an error committed by the authorities in common with hosts of private investors, who put their money in those days into properties which have greatly depreciated in value.

But this error must not be allowed to bar all future progress. At the present time public works can be carried out at a reasonable rate, and it would even be some relief to the labour-market to set such operations afoot. Sewerage-works might be executed now in those parts of the city which still require it at a cost which would not be disproportionate to the income which would be levied by a sewerage rate, and the advantage to the city in respect of health and cleanliness would be very great. The work too could be, with great advantage, carried on contemporaneously with the operations for reclaiming the flats at Woolloomooloo and Darling Harbour. In conjunction with the new circular wharf at Woolloomooloo, an outlet has been necessarily provided for the natural drainage of the valley, and this must ultimately become the outlet for a system of sewerage for that locality which will have to be completed some day. The great sewer in Hay-street is at present also only available for surface drainage; but it could be made use of as the main sewer for the greater portion of Surry Hills, and that, too, without involving the inhabitants in any expense which would be oppressive, when compared to the benefit conferred.

It seems the more requisite that attention to these works should not be needlessly delayed, because in connection with these out-falls it is desirable that land should be reserved sufficient to provide room for all the apparatus that may be necessary for filtering or deodorising the sewage. The present plan of discharging everything into the harbour is, undoubtedly, both wasteful and injurious, and cannot be indefinitely continued.

The harbour has already suffered some injury, and will suffer more unless the deteriorating process is arrested. It will be necessary to adopt the plan which has been put in operation in other cities of constructing capacious reservoirs to collect the sewage and detain it sufficiently long to allow the more solid particles time to settle. The liquid portion may then be allowed to run off without material injury to the harbour, and the solid refuse will be available as manure. If some such plan is not put into operation we shall have to keep on incessantly making reclamations, for the harbour near the sewer outlets will be continually filling up. Nearly the whole of the city proper drains into the harbour, and the more complete the sewerage system becomes the more extensive will be the drainage; the urgency of some reform, therefore, will become more patent day by day. The reclaimed space at the main outfall at Fort Macquarie might perhaps be rendered available for all that will be required there, and space can be reserved at the other places out of the reclamations in progress. There will not be much need to add to the number of outfalls. Those at present constructed will, if turned to their full account, accommodate nearly the whole of the city. Anything additional that may be required for the purpose of completeness would be only on a small scale.

Of course, all the suggested improvements cost money. But the money would be forthcoming if the Corporation finances were once put on a sound footing. It is getting quite time that the citizens fairly faced this question, and ended that long dispute with the Government which embarrasses the operations of the City Council. It is no credit that the matter has not been settled long ago, and the pressing urgency for fresh works makes it expedient that no other session of Parliament should elapse without a settlement being arrived at. The collection of sewerage rates must of course form an essential item in any arrangement. There is no city in the world where drainage has been carried out where such rates are not levied, and the citizens of Sydney cannot expect any exemption from the rule. But when the money is wisely spent, the tax is a light one compared with the benefit conferred.

THE INTERIOR OF CHRIST CHURCH.—The interior of Christ Church has undergone considerable renovation recently, and, although still incomplete, presents a much more seemly and satisfactory appearance than it has had since its consecration in 1845. The faultiness of the original design of the building, prepared in days when ecclesiastical architecture was in a very low state both in England and the colony, can never be wholly remedied. Whatever in the fabric, fittings, and internal arrangements is of a more satisfactory character is owing to the better taste and advanced knowledge of later times. The original wooden window frames have been gradually superseded by jambs and mullions of stone, at the cost of the various benefactors who have erected memorials to their dead in painted glass,—and all the north and south windows (except one, opposite to the south gallery) are now richly dight with colour. The three-light eastern window of the chancel was originally filled with coloured glass of too light a tone to accord with the richer colours of the aisle windows, and a desire was therefore expressed to see it supplied with glass more in keeping with the whole. An opportunity having presented itself of purchasing some glass originally designed for it by Wailes, a movement was set on foot amongst the old scholars of the parochial school, and in a very short time the requisite sum was forthcoming, and the present glass was set up in its place last Christmas Eve. Its subjects are full-length canopied figures of Our Blessed Lord, and St. John the Baptist, and St. John the Evangelist—Our Lord as the Good Shepherd, with a lamb in his arms and sheep by his side. Underneath is the legend, "I am the Good Shepherd." At the foot of the window is an inscription, "The offering of Old Scholars of the Parochial Schools." The compartments in the tracery of the head of the window represent the principal events in our Saviour's life. The chancel has been further decorated with a beautiful memorial window erected by Sir Alfred Stephen's family. The south window has been also sent for. The roof of the chancel has been completed by panelling in rich blue, powdered with gold *fleurs de lis*; the mouldings being painted in vermillion and white-banded, and enriched at their intersection by carved bosses in white and gold. The nave and aisles' roofs have presented the greatest difficulty, the dull cedar lining absorbing much of the light, and there being no possibility of introducing any beauty of form in an essentially unsightly structure. The adoption of colour was the only legitimate alternative in such a case, many examples, both of ancient and modern times, being found in the churches of the mother country. The panel of the roof is blue, the principal and common rafters being chocolate, with white chamfers,—the lower face in vermillion. The wooden piers and panelling above are in two shades of drab. The general effect is certainly good, and the whole aspect of the church cheerful and harmonious. More remains, however, to be done. Arches are to be erected between each pier, resting on slender shafts. One has been completed as a sample of the design. In the spandrils are sunk quatrefoil panels, containing a shield; the latter in vermillion with the sacred monogram inscribed—the panel being azure. A series of texts with gold illuminated capitals is to be carried round the walls under the wall plate, and the chancel is to be furnished with a handsome reredos, carried all round the three walls to the height of the window cill, and panelled in colour; four of the panels to contain the Creed, Lord's Prayer, and Ten Commandments according to a common use in Anglican Churches. The reredos will be an offering from former catechumens of the present incumbent, and will occupy a very suitable place under the fine altar window which has been offered by the old scholars of the schools.

GOLD IN WARRAMBUCCA CREEK.—We understand that a party of prospectors were out last week prospecting on Warrambucca Creek. The other day, the nephew of Mr. Charles Edwards, of Wallace-street, brought in his first prospect, the value of which may be gathered from the fact that when sold it realised £4.—*Braidwood Dispatch.*

No. 1, MONA-TERRACE, Rushcutter's Bay.—We are requested by Messrs. Bradley and Newton to direct attention to their sale this day of superior household furniture and effects, cottage pianoforte by Aucher, cut glass, china, electro-plate, &c.; also, Spanish fowls, aviary, &c.; commencing at 11 o'clock precisely.—ADV.

IMPORTANT Sale This Day of Damaged Engravings, Organ, Harmoniums and Stand, Looking-glasses, Toys, Account Books, Perfumery, &c. &c.—Mr. John Solomon begs to call the attention of the trade and those whom it may concern, to the above important sale of damaged goods, to commence at 11 o'clock. Punctual attendance is solicited, in order to get through the numerous lots. Vide advertisement.—ADV.

THE RANDWICK CEMETERY.—Some time ago much anxiety was felt lest the soakage from the Cemetery at Randwick should percolate down the sandy slope which drains into the Lachlan water reserve. The matter was very properly taken up by the Municipal Corporation of Sydney, and partly in consequence of representations made by the Mayor to the Hon the Minister for Lands, that gentleman has written to the heads of the different religious denominations having portions allotted to them in the cemetery, requesting that no interments be made there. The site allotted to the Church of England is thought to drain towards the sea; and, as it is understood, there is no objection to burials taking place there. A copy of a letter on the subject from the Under-secretary for Lands to the Town Clerk will be found in our report of the proceedings of the Municipal Council yesterday.

LECTURE.—A very interesting and instructive lecture was delivered last evening in St. John's schoolroom, Glebe, by the Rev. H. King (of Surry Hills), on "Captain Cook's Discoveries." The schoolroom was about three-parts filled. After the lecture there was an exhibition of pictures (presented with the aid of the magic lantern), illustrative of the lecture, and depicting many of the principal events in Cook's career of discovery, some of them having especial interest to Australia. A cordial vote of thanks was accorded the rev. lecturer at the close of the proceedings.

DEATH OF MR. W. BROWN.—Mr. William Brown, J.P., of the Market Wharf, died yesterday evening, at his residence, Bourke-street, Surry Hills. On Sunday, the 3rd instant, the deceased gentleman had the misfortune to suffer a very severe accident. He was returning from a funeral, and when in Bourke-street the horses attached to the cab in which he rode became restive and the vehicle was upset. Three of Mr. Brown's fingers were cut off, and it is understood that tetanus supervening caused his death.

SERIOUS ACCIDENT.—An accident happened to a labourer named Thomas Roberts yesterday morning, at a house in George-street, opposite the Haymarket. A quantity of bricks and rubbish fell on the poor fellow, fracturing his ankle. Dr. Bowman saw him soon after the occurrence and recommended his removal to the Infirmary. Two or three other men were also slightly bruised, but their hurts were not severe enough to prevent them from resuming work. It seems that the injured man, with some other workmen, were taking down the front of one of three houses undergoing repair. The lower portion of the wall had been removed, and the front of the roof was held up by a beam running lengthwise across it. The baulk rested on some pieces of timber, and owing to one of these props slipping the brick and plaster work above tumbled down. It was a very fortunate circumstance that the end of the beam which gave way fell on the top of a huge heap of bricks and thus afforded protection to the men underneath it; had it not been so, persons who saw the accident state that five of the workmen would in all probability have been killed.

CORONER'S INQUIRY.—The City Coroner held an inquiry yesterday, touching the death of Thomas Borke. Deceased, a cab-driver, forty-six years of age, lived on the Ultimo Estate, and for the last two years had been supported by his family. He was taken seriously ill on Monday, but he would not have a doctor sent for. There was no room to accommodate him in the Infirmary, and he died before he could receive medical aid from the dispensary. The coroner's finding was borne out by the evidence of Dr. Renwick, and also by the testimony of deceased's wife. It was—"That deceased was found dead in bed on Saturday afternoon, and that the cause of his death was chronic disease of long standing, the result of intemperance and exposure."

MADAME JAFFA'S CONCERT.—The concert announced for yesterday evening at the School of Arts came off with considerable *eclat*, in the presence of a select and highly appreciative but not crowded audience. The concert, like many previous ones given by the same lady, was all that the true lovers of music could desire; the entertainment, particularly the instrumental portion of it, was in fact such a one as is seldom provided in this city, where music forms such an important feature in almost every public gathering for instruction or amusement; but it was scarcely popular enough to attract the masses. The *artistes* on this occasion included Madame Sara Flower, Mr. Charles Stewart, M. Halmberger, and Mr. J. Bushelle, all of whom have a large number of admirers, who, upon every appearance of their favourites in public, are ready to encourage them with their plaudits; but undoubtedly the great attraction of the entertainment yesterday evening was the extraordinary instrumentation of Madame Jaffa. This lady played a grand fantasia from "Rigoletto" on the piano, in the first part, a fantasia impromptu, and a grand fantasia on the Cracovienne in the second, and in each an *encore* was enthusiastically demanded, and gracefully complied with. Beyond these the principal features of the programme were a solo, "Voi che sapete," and the favourite song, "Kathleen Mavourneen," both given with excellent effect by Madame Sara Flower; the songs, "Alice, where art thou!" and "The Message" (the music of the latter composed by Madame Jaffa), by Mr. Charles Stewart; the ballad "Old friends and other days," by Mr. J. Bushelle, and the duet, "I am the King of Spain," by Mr. C. Stewart and Mr. J. Bushelle. All the performers acquitted themselves to the entire satisfaction of the audience, and the entertainment, both as regards the excellent musical treat provided, and the object,—the proceeds of the concert, less its expenses, being presented to the Floods Relief Fund—merited a crowded house.

FLOOD RELIEF FUND.—A literary and musical entertainment in aid of the Flood Relief Fund, was given yesterday evening, in the Temperance Hall, by the choir, and various members and friends of the Unitarian Christian Church, in Macquarie-street. The programme consisted of a selection of favourite songs, part songs, and choruses, all of which were very creditably executed by a choir of about twenty voices. The organist at the Church officiated as Conductor, and a lady played the pianoforte accompaniments. In the intervals several popular and amusing pieces were read or recited, contributing almost equally with the musical performances to the enjoyment of the occasion. The Hall was nearly filled, and the object of the promoters of the entertainment—to aid the Floods Relief Fund—would, therefore, be in some degree realised.

ST. PATRICK'S HALL.—A musical entertainment was given yesterday evening, in St. Patrick's Hall, by the Kentucky Minstrels, a company of amateur performers who made their first appearance in public on that occasion. Their efforts to amuse the audience—with singing and the customary accompaniments, and also, with nigger drolleries—were well received, and the entertainment passed off successfully. The attendance was rather numerous. The proceeds were to be devoted to paying off the debt on the site adjoining the Church.

ACTION FOR LIBEL.—The correspondent [illegible] *Courier* says:—At the Young District Court, [illegible] last, Thomas M'Donald, one of the propri[illegible] *Tribune*, brought an action for libel against [illegible] O'Neill, the proprietors of the *Star* newspaper. [illegible] ton appeared for the defendants. The plaint[illegible] recover £200 for the alleged libellous article [illegible] the *Star* newspaper, and which article the pl[illegible] prove applied to himself, as representing an op[illegible] life. The defendants pleading not guilty, [illegible] who appeared for the plaintiff, addressed the [illegible] siderable length, and read the article containin[illegible] libel. It appeared that in the *Star* of the 23rd [illegible] under the heading of "Australian Sketches, [illegible] and after an introductory paragraph as to [illegible] in which incompetent men are sometimes [illegible] into positions for which they are total[illegible] it went on to describe a scene, or "scenes," alleged to have taken pl[illegible] township of Bung, in which an[illegible] named "Old Kypes" enacted the principal character. This individual is described as being singularly hideous in appearance, and to have been guilty of very gross immorality and indecency on a certain occasion. The whole of the details are given *in extenso*, and the sketch winds up with the statement that "Old Kypes" died very miserably within a very recent period. The law of libel having been laid down, and the unprecedented grossness of that now to be tried and its direct application to the plaintiff being forcibly impressed upon the jury, the learned counsel called witnesses. The plaintiff's case having been closed, Mr. Templeton addressed the jury for the defence. His Honor recapitulated the evidence, and directed the jury as to the law bearing on the case. The jury retired, and, after an absence of a quarter of an hour, returned into the Court with a verdict for plaintiff, damages £40.

DROWNED IN A HOLE.—Last Friday morning the body of a man named Thomas Penprase, generally known as "Tom the Tinker," was found in a hole bordering on the road, near the first bridge, at the foot of Burrowa-street. A magisterial enquiry was held on the body by Mr. J. E. Pearce, when it transpired that the deceased had been missing since Tuesday night, when he called at the house of Mr. Poignand, the blacksmith, in a state of intoxication. The night was very dark, and Mr. Poignand gave him a candle to light himself home, with which he started for his own hut. Not being seen about as usual on the two following days, a search was instituted, which resulted in the finding of the body as above stated. Deceased was a native of St. Agnes, in Cornwall, and had been in the colony about seven years. For some time past he followed the occupation of a razor grinder and tinker. Deceased had been a heavy drinker for many years. He was about fifty years of age, and has left a wife and seven children in England.—*Burrangong Star.*

## GOULBURN.

Monday, 6 p.m.

AT the Flood Relief meeting, called for this evening, the attendance was very small, and it was postponed till Thursday.

## HAY.

Monday, 11 a.m.

The steamer Moolgewanke, Captain Randall, with one barge in tow, has arrived from Goolwa, with about 100 tons of cargo, consisting principally of station supplies, flour being the chief article.

The steamer is on a trading voyage, and will proceed up the river as far as Narandera.

Flour is £36 per ton here.

## BRISBANE.

Monday, 6 p.m.

A proclamation has been issued by the Government cautioning persons against going to the proposed settlement at Port Albany.

Advices from Rockhampton state that rumours were current there, that Pegan, the bushranger, the leader of the gang who have been recently committing depredations, had been captured in one of the outlying districts.

The news from Peak Downs diggings is unimportant. Water was still scarce, and sickness prevalent.

ARRIVED.—Telegraph (s.), from Sydney.

## MELBOURNE.

Monday, 5 p.m.

Notwithstanding the multiplicity of candidates, the coming general election has brought forward but few good men. The electorates are very much reduced in number by the new Act.

The opera season closed on Saturday night, with a bumper house. Mr. Lyster made his final adieu. The company will make a tour of the provinces, and return to California via Sydney.

The markets are unsettled.

There is some speculation as to the war news by the expected English mail.

Flour nominal.

Tasmanian advices to July 6th state that wheat is scarce. Flour nominal.

ARRIVED.—City of Melbourne (s.), from Sydney; Alford, and William Hill, from Newcastle; Claud Hamilton (s.), from Otago.

SAILED.—William Miles, for Callao; Rose, for Calcutta.

## ADELAIDE.

Monday, 7 p.m.

The flour market has been inactive to-day. Quotations are £26 to £28, but no transactions. Wheat was placed at 10s. 10d.

Mr. Paull, of the firm of Messrs. Paull and Meredith, wine merchants, on his returning home fell into a hole, and broke his leg. His cries failed to obtain assistance, and he was exposed to the rain all night. He expired late yesterday.

Strong opposition is expected to the Government Road Bill on the meeting of Parliament to-morrow.

The Christy's Minstrels, now performing here, are drawing good houses.

The cargo of sugar by the Saint Joseph, from Bourbon, consists principally of dark browns. It will be offered by auction here.

Great disappointment is felt at the non-arrival of the Rangatira, from King George's Sound, with the English mail.

THE STEAM-BOAT PIER AT NEWCASTLE.—Great dissatisfaction exists with respect to the new steamer pier. The pier itself has been long ready for the traffic for which it was erected, but now there are a host of obstacles thrown in the way of opening it. First of all, the inclemency of the weather seriously impeded the progress of its construction. Then the dredging operations, which were of a most critical and arduous character, were completed, and a sufficient depth of water secured for their safe and easy access in any state of the tide. All these things accomplished, all obstacles were supposed to be overcome, and that no further interruption to the occupation of the pier would have to be encountered. The case has proved otherwise. It was then found that it would be necessary to fill in the large "wash" at the rear of the platform, on which the intended goods' shed was to be erected. This could only be accomplished by ballast from the vessels, and the nearest mooring place for the vessels to discharge from, was the steamboat pier, which has only been occupied for that purpose, since its completion for the steamers. During the many months this work has been in progress, the idea never appears to have presented itself of filling in this salt water lagoon, simultaneously with the progress of the construction of the pier, and thus, delay after delay has been occasioned by this unbusiness-like and unsatisfactory mode of proceeding. Vessels have been lying under their ballast week after week, and the masters have been begging and praying to be allowed to discharge at this spot. The Harbour Department here, having no instructions to that effect, declined to allow vessels to put out bal-

capture this unmitigated ruffian is inspiriting, and we hope such deserving efforts will be crowned with success. If this energy had been shewn by the police in other districts, bushranging would never have attained the magnitude it has now, and the colony would not have been so shamefully disgraced.

EFFECTS OF THE FLOODS AT ARALUEN.—We regret to hear that a great amount of destitution prevails in the Valley, and that a large number of the claims have been totally abandoned by the holders in consequence of the additional damage inflicted by the floods of last week. Indeed, we are informed that many persons have a difficulty in obtaining enough to eat, although some of the storekeepers and butchers are very liberal in allowing goods and necessaries on credit. A deep feeling of regret will be created by the announcement that the party of Hogg and Finn, popularly known as the holders of the "big engine" claim have been reluctantly compelled to give up all idea of getting their engine from the place where it was submerged during the first flood. It is buried to such an extent that the expense to be incurred in digging it out would be equivalent to the purchase-money of an entire new set of machinery. Others of the claims which had been opened out before the second flood, have been entirely levelled again, and the owners are consequently so disheartened as to give up the task in hopeless despair. Connected with the general depression in the Valley, we may mention, as the development of a singular phase thereof, that the parties who seemed to realize the most money during the favourable season are now the most in want of the sinews of war. This is the more singular when it had been stated that they had previously to the late reverses, got from 100 to 175 ounces per week, and at least goes to prove that "all is not gold that glitters" in mining reports.—*Dispatch.*

## GENERAL SUMMARY,

LONDON, 28th May.

The Australian March mails were delivered in London on the 14th and 17th May.

Her Majesty continues in good health, and held a second Court at Buckingham Palace on the 4th May.

It is reported that owing to the complications arising out of the Danish War unpleasant disclosures have occurred in the Royal circle.

The Prince and Princess of Wales are acquiring great popularity, and hints are given that it is probable her Majesty will shortly retire from office.

The London Conference on the Dano-German question resulted in a suspension of hostilities for one month from 12th May; and during the time no contributions of war are to be levied in Jutland or elsewhere—all articles taken to be paid for.

The Allied Powers are now in possession of Schleswig-Holstein and Jutland:

The popular feeling in England is strongly in favour of Denmark.

It is said that Lord Palmerston is anxious to send a British fleet to the Baltic, but if overruled he will resign, or advise her Majesty to dissolve Parliament.

Mr. Gladstone made a remarkable public speech, advocating the extension of the suffrage to the working classes, reducing the qualification of borough voters from £10 to £6.

The movement of the Austrian fleet is considered so suspicious that the English Channel fleet has been ordered to the Downs, to be in readiness, and the French fleet is expected to visit it.

In the House of Lords, Earl Russell's reply to the Earl of Derby, in a debate on the Danish question, was to the effect, that in entering on the Schleswig at a time when Denmark was ready to accede their demands, Austria and Prussia had commenced a most unjustifiable war.

Lord Wodehouse stated that Government contemplated shifting the seat of the Indian Government from Calcutta (the probable place will be Simla).

The Punishment for Rape Bill passed the second reading; giving Judges a discretionary power to inflict flogging.

In discussing the New Zealand Confiscation Bill, Mr. Cardwell stated that a bill would be immediately introduced in the New Zealand Assembly to put an end to the powers of the Settlement Acts.

The working men of Liverpool and London are purchasing a screw steam yacht for Garibaldi.

The Duke of Sutherland has been feted at Stafford for his hospitality to Garibaldi.

The value of cotton imports into Liverpool within ten days in April reached nearly six millions pounds sterling.

The distress amongst the cotton operatives has greatly diminished.

The steam rams built on the Mersey have been purchased by the English Government.

Several principal clerks in the War Office have been summarily dismissed for gambling, after twenty-eight years' service.

The Irish exodus continues. Many agricultural districts are almost depopulated.

A fearful famine exists at the Cape Verde Islands. It is said should relief not speedily come two-thirds of the inhabitants must die.

An earthquake occurred at Quebec on the 20th April. Houses were violently shaken. Two slight shocks of earthquake were felt in the county of Sussex.

The Dublin Exhibition opened yesterday, and is a great success.

The Pope's health is again reported critical.

The Great Eastern has been purchased by the French Government, for a quarter of a million sterling; but she will complete her engagements to submerge the Atlantic cable.

Telegraphic communication is completed between London and Siberia, a distance of 4039 miles.

The Derby Stakes, net value £6675, was won by Blair Athol; General Peel 2nd, and Scottish Chief 3rd. Thirty horses ran; the distance was one mile and a half, and the time, 2 minutes 43¾ seconds.

The Newmarket 2000 guineas stakes was taken by General Peel; Paris 2nd. The 1000 Guinea Stakes by Tomato, Breeze 2nd.

### OBITUARY.

Marshal Pelissier, General Tulloch, Major-General Lake, James Meyerbeer the composer, Countess Falmouth, Major Brabazon, Lieutenant-General Gades, Mr. Morme, C.B., Mr. Kershaw, P.M., Captain Gordon, Vice-Admiral Pridham, retired; Canon Hensman, Mr. Frank Smedley, Messrs. Pitman, Heneage, and Archdall.

## AMERICA.

New York, May 14th.

LATEST INTELLIGENCE.—MOST IMPORTANT.

The Federal army, under General Grant, in Virginia, numbering 100,000 men, gave battle to the Confederates under Lee, also numbering 100,000; which commenced on the 5th May.

The carnage is described as truly awful; for upwards of a week both armies were engaged in a daily hand to hand conflict with varied success.

After the battles of the 5th and 6th, Lee retreated in good order.

On the 10th and 12th, a most sanguinary engagement again took place. All the reserve of both sides were brought up, and the battle raged for two days with great fury, scarcely any artillery being employed, when General Hancock succeeded in turning Lee's right, but the desperate attacks on his left and centre were repulsed with great slaughter. On the 13th, General Lee withdrew across the river, in good order, to a stronger position.

The Federals admit a loss of 40,000 men killed, wounded, and prisoners. The result of the week's slaughter may be thus summarised:—

The Confederates have lost some ground, and the Federal army is nearer to Richmond by twenty miles than before, but even if Grant succeeds in taking Richmond, the subjugation of the South will be as far off as ever.

The Confederates' loss during the week's battle is estimated in all at 37,000 men. Federal Generals Sedgwick and Warren are killed. General Longstreet is badly wounded.

There is every probability of war continuing with unabated vigour.

The Governor of Kentucky issued a proclamation calling for 10,000 troops to assist in finishing the war and saving the Government.

Reinforcements were being hurried forward from Washington for General Grant.

Reports from Cincinnati state that General Sherman captured Dalton, with 5000 prisoners and 10 guns.

The Federal Cavalry destroyed portions of the railroad in Lee's rear.

Sigel has destroyed Charlottesville, Lynchburg, and Gordonville Road.

Butler is advancing against Drury's Bluff.

Previous to the advance of the Potomac army on the 3rd, several regiments refused duty, alleging that their term of service had expired. General Meade issued an order, declaring this open mutiny punishable with death, and the troops then returned to duty.

Six large steamers with supplies and reinforcements for General Banks were captured below Alexandria.

The capture of Admiral Porter's fleet of gunboats is considered inevitable.

Major-General M'Dowell is appointed to command the military department of the Pacific in the event of a rupture with France on the Mexican question.

The House of Representatives passed a bill giving soldiers and sailors—both white and coloured—homesteads from the confiscated Government States.

General Canby superseded General Banks, the latter being blamed for the failure of the Red River expedition.

Federal General Forest captured Decatur, killing the whole garrison, and then retreated to Mississippi.

The Federals entirely destroyed the town of Washington, causing great distress.

Freight of flour from New York to Liverpool 1d. per barrel. Wheat brought without charge as ballast.

Money easy; gold 72⅞.

## CONTINENTAL.

### THE DANO-GERMAN QUESTION.

Denmark has totally succumbed. Duppel has fallen, and Alsen is practically gone. Fredericia is abandoned, and Jutland is occupied by the allied armies.

Notwithstanding all this, deputations wait on the King requesting him not to prolong the armistice, and when concluding peace to uphold the rights of Denmark.

Public opinion has lately taken a more warlike tone, and it is asserted that the Danish Government will recall its plenipotentiaries from the Conference should the German Powers not modify their demands.

The Ministe Justice, and the Interior resigned on account of a suspension of the blockade being agreed to.

A desperate naval engagement took place between the Danish and Austrian fleets on the 9th May, six miles off Heligoland. The Danes were victorious. Hans Auroa was there.

When the news was received in the House of Commons in England the members broke forth into tumultuous and long continued exultant cheering; for some time the Speaker could not restore order.

Despatches from Copenhagen state that the Prussians have violated the conditions of the armistice by imposing an exacting contribution in Jutland after the 12th.

The Conference peace policy prevails, and it is almost certain the Conference will agree on the basis of an appeal to the population, with a view to detach Alsen and Southern Schleswig from Denmark, taking in the frontier lines.

The loss of the Danes during the campaign has been 17,000 men and 467 pieces cannon.

## GERMANY.

The Prussian Government has abandoned the Treaty of 1852 as a basis of arrangement, and irritation against England increases. She is accused of egotism, arrogance, brutal haughtiness, and complicity with the enemies of Germany.

Vienna prays for the adoption of a policy—even at a sacrifice—to chastise British insolence.

M. de Kimarck announced to the English ambassador that he will only communicate with him henceforth officially. This act will probably terminate in the recall of their respective ambassadors at London and Berlin.

## ITALY.

Garibaldi's reception in England caused a profound sensation of gratitude amongst the Italians.

The Minister of the Interior explained that the policy of Government may be based on a firm alliance with the Western Powers.

The standing army now numbers 385,000 men, and nineteen regiments of cavalry.

The state of the Pope's health is so alarming that the Cardinals in Rome held a secret conclave to elect a successor to the Papal throne.

A Bourbonist plot has been discovered, and the expulsion of Francis II. from Rome will be demanded by Victor Emanuel.

## FRANCE.

It is rumoured that Napoleon has secured a slice of German territory near the Rhine frontier, which may materially alter his views on the Dano-German question.

The insurrection in Algeria is gaining ground, and sanguinary engagements have taken place.

A project for uniting France and America by telegraph wire is contemplated.

## TURKEY.

Three hundred thousand Circassians are seeking refuge in Turkey, to escape from Russian persecution. Great misery prevails among them. The Sultan proposes to enlist 20,000 in his army.

## RUSSIA.

The financial budget just published is satisfactory. The Emperor speaks of a Circassian extermination as a glorious work.

87,500 Poles have been transported to Siberia during the insurrection. General Bing alarmed at the effect of the Emancipation Committees in the provinces, intends recalling them to Warsaw.

## GREECE.

Fresh disturbances at Athens. A new ministry is formed. Great opposition against Count Sponeck, the young King's private adviser.

## BELGIUM.

A Ministerial crisis has occurred.

## INDIA.

BOMBAY, 18th June.—Exchange on London, 6 months, 2⅛s.; Calcutta, sight, 100½; China, 60 days, 224. Freight.—London, cotton £2 10s.; Liverpool, £1 10s.

CALCUTTA, 18th June.—Exchange on London was 2s. 0½d. Freight.—To London, cotton, £3 10s.; linseed, £3; rice, £2 10s. A proposal has been made at Calcutta to construct a capacious dock and quay opposite the Custom-house.

The indigo districts are reported in an unsatisfactory state owing to an ill-feeling between the planters and ryots.

Affghanistan is again plunged in civil war. Azem Khan's forces deserted him on the eve of an engagement with the Ameer's troops under Rupput Khan. The Ameer has marched on Balkh to attack Afsene Khan, with every prospect of success.

The Messageries Imperiales Steam Company have lowered their rates from Calcutta to Marseilles to 850 rupees from 1st instant.

## CHINA.

HONGKONG, 30th May.—The City of Chanchowa was gallantly captured by the Imperialists, under Captain Gordon, who has returned from active service. Nankin is now the last stronghold in the rebel possession, and will shortly be attacked.

Exchange on London: Bank bills, 6s. 6d; cotton, 19½ taels per picul; Malwa opium, 510 taels; Patna, 310 taels.

## JAPAN.

An expedition is fitting out in Japan to open or reopen the inland sea, of which the well-known Straits of Sleinonosake forms the key.

## WESTERN AUSTRALIA.

Accounts just received from the explorers describe the country about Roebuck Bay, and inland for a great distance, as well watered and grassed, equal to any pastoral land in Victoria.

## COMMERCIAL AND MONETARY.

London, 26th May.

On the 19th instant, the Bank of England Directors reduced the rate of discount from 9 to 8 per cent; and this day, from 8 to 7 per cent. The Bank of France also reduced it from 8 to 7 per cent. At Vienna, the discount is 6 per cent. St. Petersburgh, 5 per cent. Turin, 7 per cent. Berlin, 4½ per cent.

The bullion in the Bank of France has increased to upwards of ten millions sterling.

The coin and bullion in the Bank of England stands at upwards of 13 millions sterling.

A further reduction in the discount market is expected.

Consols for money, 91⅝ to ⅞; for account 90⅞ to 1⅛ ex dividend.

Colonial Government securities:—Victoria 6 per cents., April and October, 108 to 109; New South Wales 5 per cents., 1866, January and July, 99½ to 100½; Queensland 6 per cents., January and July, 108 to 110; New Zealand 6 per cents., 109 to 111; South Australian ditto 1878 and upwards, 109 to 111.

### WOOL REPORT.

May 25th.—The sales commenced on 5th May. Large attendance of buyers, both home and foreign, with spirited competition. Up to date more than half the quantity catalogued passed the hammer.

Comparing prices with March prices—the choicest Port Phillip advanced three halfpence to twopence; and one penny to three halfpence for average to fine.

An advance on Sydney, Cape, and other descriptions of wool of about one penny took place; fine combing fetched 2s. 7d. to 2s. 11d., and noted Sydney brands brought 2s. 11d. to 3s. 8d.

Steady prices are expected to rule throughout the year.

### EXPORTS.

The shipments to Australia are moderate.

The total value during the month is £681,149, showing a decrease of £2751 against those of the previous month. In the corresponding month of 1863 the total value of exports was £880,040.

The exports to Melbourne for April-May show a decrease of £22,140; to Sydney a decrease for the month of £13,430.

Shipments to Adelaide show an increase of no less than £37,830.

In nearly all instances, shipments of seasonable goods are in advance of last month. Other items lower.

The increase in the exports to New Zealand for the month is £11,045.

A meeting of the shareholders of the London Chartered Bank is convened for the 10th of June.

A final call of £10 on the new shares of the Union Bank of Australia is payable on the 15th of June.

A prospectus of a new Emigration Company has been issued, with a proposed capital of two millions sterling, three-fourths to be first subscribed, £50 shares to extend facilities for emigration to Australia, under the auspices of Gibbs, Bright, James Baines, and others in Liverpool.

The New Zealand Banking Corporation declared a dividend of 10 per cent. on 2nd May.

The Trust and Agency Company (Australian) declared a yearly dividend of 10½ per cent.

## LATEST SPECIAL TELEGRAM.

[VIA SUEZ.]

LONDON, 4th June, 11.35 p.m.

THE second reading of the Penal Servitude Bill has passed in the House of Lords. The Government characterised the Australian grievances as only imaginary.

Mr. Cobden's motion, advocating the policy of non-intervention in China, was, after a full debate impugning the Ministerial policy, withdrawn.

The Abolition Bill passed through committee by a majority of ten.

Mr. Gladstone has qualified his very "Liberal suffrage" speech.

At the Conference Meeting, on the 28th May, a prolongation of the armistice was proposed, and a treaty on the basis of that of 1852 was abandoned by England. A compromise was submitted, the object of which was to incorporate North Schleswig with Denmark, and South Schleswig with Holstein, and create it a German duchy.

Prussia encourages the Duke of Augustenburg's pretensions, but Denmark resists the proposal.

In America, General Grant unsuccessfully attacked Lee at Spotsylvania on the 18th May; and Lee subsequently attacked Grant without any result. Beauregard assaulted Butler's reinforcements at Siebel, but was defeated. At Newmarket, General Banks was in imminent peril. The Federals have abandoned Baton Rouge. Gold 83.

The Chincha Islands have been seized by Spain, but present contracts are respected.

The health of Pope Pius is re-established.

Consols, 90.

## QUEENSLAND.

The Clarence steamer brings three days' later papers from Brisbane, viz., to the 9th instant:—

The *Courier* of that date says:—When Parliament resumes on the 19th instant, a motion in the terms following will be brought under the consideration of the Lower House by the senior representative of East Moreton:—"That in the opinion of this House no member of the Legislative Assembly ought to be eligible for appointment to a paid office under the Crown, until a period of six months has elapsed after resignation of his seat, except in the case of appointment to office as a responsible Ministe-." This is not the first time that the proposition has been advanced in Queensland by the same punctilious guardian of the purity of Parliament. Its fate on former occasions is evident from the circumstance of its being now a moot-point before the Legislature. For our own part, we regard it as one of those harmless abstractions the determination of opinion upon which, under the present circumstances of this colony, is inconsequential.

The *Darling Downs Gazette* reports that, on Friday last, as Mr. Randal Macdonnell, proprietor of the *North Australian*, was journeying upon horseback towards Toowoomba, when at Emu Creek, about six miles from Eton Vale, the horse stumbled, and falling, broke its neck. Mr. Macdonnell miraculously escaped without sustaining any personal injury by the fall.

The *Queensland Times* of 7th instant contains the following remarks in reference to Yamahanto, the cotton plantation of Mr. George Challiner, which, it states, is entitled to rank among the lions of Ipswich:—It is distant about three miles from town, a little off the Warwick road, and the quantity of land now under cotton crop is thirty-four acres. As we strolled through the plantation, meeting here and there the pretty rose-faced maiden with her bag of cotton slung at her waist, her busy fingers rapidly adding to the store, while the inevitable crinoline, it must be admitted, increased her labours rather than her grace; and as we beheld acre upon acre bursting out with snowy pods, it was almost impossible to believe that less than twelve months ago the ground on which we stood had not been touched by the hand of man. Such, however, is the case, for Mr. Challinor only commenced ploughing in October, and he has been picking now for two months. The crop, nevertheless, is not more than a fair one, the rain having interfered very much with the growth; the quantity expected is from twenty to twenty-five bales. The character of the soil is light and friable, dark brown in colour, with a depth of about eight inches, and a substratum of rotten rock. The kind of cotton with which Mr. Challinor has made this his first experiment is the Sea Island, but his intention next season is to plant New Orleans, of which he expects to obtain a crop double in quantity to his present one, while the price realisable is within 5d. of the other. An additional quantity of land is also being got ready for next planting, which will increase the cotton ground to nearly fifty acres. The price paid to the girls for picking is one shilling per day.

From the Notes of the Week in last Saturday's *Courier*, we quote the following:—

The Right Rev. Dr. Barker, Bishop of Sydney, accompanied by Mrs. Barker, arrived in Brisbane last evening. They are the guests of Sir George and Lady Bowen at Government House.

Mr. Justice Lutwyche left town yesterday afternoon for Toowoomba, where he is to preside at the forthcoming assizes. The criminal calendar is very heavy. Mr. Chief Justice Cockle opened the civil sittings of the Supreme Court at Ipswich on Wednesday last.

A man named Henderson, servant to Mr. W. F. Roberts, of Spring Hill, absconded some days ago with one of his master's horses, a valuable gold ring, and a cheque for about £50. He has not since been heard of, though the police have made a vigilant search for him.

A colonial-built barge was launched at Kangaroo Point yesterday, in presence of a gay company invited by the owner, Mr. T. B. Ward, to witness the interesting ceremony. She was christened, in proper form, the Enterprise.

The Toowoomba Annual Races came off this week, and attracted an unprecedented number of visitors to the Darling Downs. The sport was first-rate, but we regret to say that a fatal accident occurred on the third day.

The city is full of new arrivals by the ship Legion of Honour, which arrived in Moreton Bay on Monday.

A petition has been presented to the Speaker of the Legislative Assembly against the return of Mr. Hoyde, for the Leichhardt District.

Flour has again risen in price, and the market is in an unsettled state.

The prospectus of a new local journal at Warwick has been issued.

A brilliant company assembled at Government House on Monday evening, upon the invitation of Lady Bowen, to witness an amateur dramatic entertainment of great excellence.

The news from the north is unimportant. There have been a few "rushes" on the diggings, but it is not yet ascertained if anything unusual has been developed.

A branch of the Joint Stock Bank has been opened at Clermont, Peak Downs.

A Roman Catholic clergyman, the Rev. William Bowe, died on Saturday last, and was buried in the Brisbane cemetery on Sunday afternoon with all the solemnities of the church. The funeral cortege included between two and three thousand persons.

Dr. Von Lossberg, after being missing several days in the bush, has turned up at Ipswich, none the worse for his wanderings, and unwillingly gained colonial experience.

## NEWCASTLE.

[FROM OUR CORRESPONDENT.]

IN my communication yesterday I drew attention to the late disaster at Minmi, and the efforts that are being made by the company to get the mines again in working order. From the many appliances it was generally anticipated the pits would be sufficiently free of water in the course of a few days as to admit of a portion of them being worked; but, unfortunately, the centrifugal pump, from which so much was anticipated, has, up to the present time, proved anything but successful. A number of experiments have been tried, which no doubt will ultimately lead to better success, in the meantime the various other pumps are working admirably, throwing out immense quantities of water. A portion of the mines are even now sufficiently free from water as to admit about seventy-five men, but the shaft not being free it would be useless to commence work. Some fourteen men are constantly employed propping up various parts of the pit as the water recedes. At the present rate the mines will probably be in full work in about a fortnight, in the meantime the company will continue to obtain coal from one or other of the coal companies, and shipping them at Hexham and at their drop slip.

It is somewhat remarkable in my last communication that I should allude to the dispatch vessels could now obtain from the better facilities offered, that almost at the very moment I wrote preparations were being made to load vessels at night as well as by day! From the large number of shipping that has for months past visited our port, there has of a necessity, from time to time, been some delay in getting them loaded as quick as could be wished. At the present time our harbour is pretty full, and as all could not be served at once, the idea of loading by night was proposed, resolved, and immediately acted upon. Yesterday evening, shortly after five o'clock, the French transport barque Bonite was brought alongside No. 1 crane, and at nine o'clock commenced loading, and by two o'clock in the morning had taken in her complement of 200 tons coal, hauled off, and allowed another vessel in her berth. For this convenience some few pence extra per ton is charged for shipping, but this is amply repaid by the saving of time, for had this vessel awaited her regular turn it is probable a delay of at least a week would occur. To-night, the Kangaroo (s.), which only came in on Tuesday, will also take in her cargo, and will possibly sail to-morrow. This is something like dispatch, and now that the system of loading by night has once commenced, there can be no doubt but it will be generally carried into effect, seeing the great boon it must necessarily confer upon the shipping generally by giving them immediate dispatch.

July 9.—The Kangaroo sailed this morning.

SPREAD OF PLEURO-PNEUMONIA IN NEW ZEALAND.—From the Melbourne *Argus*, we learn that pleuro-pneumonia appears to be spreading amongst the cattle in the province of Southland with a rapidity which sets at defiance any steps which have been taken by the Government to check its ravages. Reserves for quarantine ground are no sooner made, and the infected cattle driven there, than, breaking bounds, they disperse in all directions, carrying disease and death into healthy herds. The expense of stockmen, in the present state of the provincial exchequer, is impossible, and thus it is feared all the precautions hitherto taken will be rendered futile. Even the inspectors appointed are honorary—travelling in the discharge of their onerous duties at their own expense.

BOTANY OF THE PROVINCE OF OTAGO.—Dr. Hector, the geologist of Otago, in his last official report, gives some information relative to the botany of the province. He states that the botanical collection which has been obtained by Mr. Buchanan comprises over 4500 specimens—embracing about 650 distinct species of plants. The majority of these specimens have been transmitted to Dr. Hooker, for the purpose of being described in his forthcoming hand-book of the New Zealand flora. The number of species given above include 350 flowering plants, and as there are about 150 of the most common species that have not yet been collected, the total number of flowering plants in the province may be taken at 500 species. As the total number in New Zealand is only about 800 species, we may, therefore, conclude that the collection is tolerably complete. The districts around Waikaiva and west from Riverton are now the only promising localities that remain for examination, but there is little prospect of these yielding much novelty. The number of ferns which have been found is eighty. Of mosses, 100 species have been collected, among which there are many new; but in this class of plants Mr. Buchanan considers that there still remains an ample field for future discovery. Only sixty species of lichens and algæ have been preserved—a large collection of these plants, which was made on the West Coast, having been destroyed through damp. Although most of the plants in the province have now been collected, much still remains to be done in tracing the geographical distribution of the various species.

**WHITECHAPEL MARKET.**

**IMPOSITION PREVENTED. ANOTHER EXPOSURE.**

In order to prevent the public being imposed upon by the monopolist butchers in the city of Sydney and the suburbs, the public are most respectfully informed that there is no rise in the prices of meat at Whitechapel, or either of the Branch Establishments. But the usual price and the usual quality, which has so distinguished our Whitechapel and the Branch Establishments for years past, will be supplied to them the whole of this week, and your attendance is earnestly solicited to inspect the quality, which will bear comparison with any in the colony of New South Wales.

P. M'CARROLL.

Java Produce.

Entire Cargo of the Leonidas, Jewell, from Batavia.

WEDNESDAY, 13th July.

Highly Important and Attractive Sale of
Java White Crystal Sugar
Ditto Counter ditto
Brown Ration
Picked Coffee
Mill-dressed White Table Rice
Black Pepper
White ditto
Nutmegs.

These sugars are mostly of the finer sorts, similar to the samples per Colonist, so much appreciated by the trade. They are packed in small, strong, and handy bags, making them very suitable for family use, or transmission to the interior.
The coffee is a picked sample, being what is known in Batavia as West India prepared, and considered equal to the well-known coffee grown in the Island of Jamaica, where, in fact, the seed was obtained. As the quantity is, unfortunately, but small, those who wish to obtain a really first-class coffee must not neglect this chance.
The Rice is a beautiful Carolina-dressed white table quality, and is also packed in small bags.

The whole cargo for sale, without reserve.

L. E. THRELKELD and CO. have been instructed by J. A. Brown, Esq., to sell by auction, at the City Mart, on WEDNESDAY, at 11,
Ex Leonidas, from Batavia,
PP— 29 tons white crystal sugar
P— 40 ditto rich grainy ditto ditto
SS— 3 ditto ditto yellow ditto
S— 5 ditto ditto ditto
TE— 8 ditto ditto ditto
TA— 8 ditto fine yellow counters
TB— 3 ditto ditto ditto
BT— 3 ditto ditto ditto
A— 3 ditto grainy ditto
TC— 9 ditto ditto brown ditto
TD— 3 ditto ditto ditto
TG— 7 ditto ditto ditto
TJ— 15 ditto fine bold grain counter
TR—1700 small bags mill-dressed white table rice, each 50 lbs.
W— 250 ditto ditto ditto
WE— 160 bags West India prepared coffee
C— 68 ditto ditto ditto ditto
WP— 58 ditto white pepper
BP— 143 ditto black ditto
LP— 15 ditto ditto ditto
NN— 20 cases fine Bintenzorg nutmegs
M— 4 ditto mace
300 bundles Bengermassing rattans.
Samples of the cargo will be on view at the Rooms of the auctioneers, 362, George-street, on morning of sale.

DAY OF SALE, TUESDAY, 26th JULY.

LIVERPOOL PLAINS.
FIRST-CLASS SHEEP AND CATTLE STATIONS.

TERMS.—One-third cash; residue by approved endorsed bills at one, two, and three years' date, with interest added at the rate of 7 per cent. per annum, and secured by mortgage over the stock and stations.

MORT and CO. have received instructions from the TRUSTEES of the ESTATE of the late THOMAS PARNELL, Esq., to sell by public auction, at the Rooms, Pitt-street, on TUESDAY, 26th July, at 11 o'clock,
The undermentioned well-known VERY VALUABLE SHEEP AND CATTLE PROPERTIES.
1. TULCUMBAH AND WESTALIBAH OR BURRELL RUNS. TULCUMBAH is situate at the junction of the rivers Peel and Namoi, and has a frontage of 5 miles to the right bank of the Peel, and 4 miles to the left and 8 miles to the right bank of the Namoi, in all about
17 MILES RIVER FRONTAGE.
It extends back over 30 miles, and the back country is intersected by the Borah Creek, which runs through it for about 15 miles, as also several other creeks; together with numerous permanent springs dispersed over the back run, affording an abundant supply of water. It consists of plains (one of which, TULCUMBAH PLAIN, IS FIFTEEN MILES LONG), MYALL and box flats, and fine open box ridges, and is beyond doubt one of the most valuable fattening runs on the Namoi River, capable of
DEPASTURING 25,000 SHEEP AND 2000 CATTLE
WESTALIBAH or BURRELL RUN, adjoins Tulcumbah, and has about
10 MILES FRONTAGE TO THE NAMOI RIVER, and extends back about 8 miles. It also consists of plains, myall and box flats and box forest, and is famous for the very large per-centage of fat stock sent to market off it. It is capable of
DEPASTURING 12,000 SHEEP, OR 4000 CATTLE.
In addition to the river frontage, Westalibah is watered by a back creek, and springs and several permanent lagoons.
IMPROVEMENTS.—Upon Tulcumbah there are the following:—Cottage and kitchen, &c., quite new, store, men's huts, and blacksmith's forge. Also a large stockyard (new), a large woolshed roofed with iron (new), and an extensive horse paddock. There are seven out-stations, with huts and yards, and three never-failing wells about 5 miles apart; also troughs for watering 3000 sheep laid on to a permanent and copious spring.
Upon Westalibah there is a substantial cottage residence, with kitchen, wash-house, and coach-house; also, men's huts, garden well stocked with fruit trees, a newly enclosed three-rail paddock, and very large and complete stockyards capable of holding 7000 head of cattle.
*** All these improvements are in thorough repair and erected beyond the reach of all floods.
With Tulcumbah and Westalibah will be sold the following stock:—
SHEEP, as per returns of 30th April—
EWES.—1153, more or less, weaners, 7 months old
2084, more or less, 1½ to 4½ years
1559, more or less, 5 years and upwards
WETHERS.—1169, more or less, weaners, 7 months old
1679, more or less, 1½ to 3½ years
48 rams
Total.. 7692, more or less.
together with
5000 HEAD OF CATTLE, more or less.
These cattle are well bred. The herd has been regularly attended to, and culled of all inferior stock for many years past. There are a fair proportion of speyed cows, and as no fat cattle have been taken for some time past, the purchaser may rely upon a draft at once.
Tulcumbah and Westalibah runs are too well known to need any lengthened comment. They are surrounded by the following first-class properties:—Carroll, Gunnedah, Burburgate, Burnidi, Barrabbas, Manilla, and Keepit. Formerly they were separate properties, but, worked together as they have been by the late proprietor, they form one of THE MOST EXTENSIVE AND VALUABLE PASTORAL PROPERTIES in the Liverpool Plains district.
*** Stores, stock horses, teams, drays, and implements of all kinds to be taken at a valuation.
2. THE WYABERRY or GEERAH, and the MARRA CREEK Runs, comprising the following blocks:—
WYABERRY
WILLOI and BACK WILLOI
ULOURI and BACK ULOURI
GINGE and BACK GINGE.
The whole of these adjoin and form a splendid tract of country, of
THE MOST FATTENING DESCRIPTION,
abounding in MYALL and SALT BUSH, and grasses and herbs of the richest kind.
They are immediately opposite to the Messrs. White's stations, Booroema and Brewan, and have a frontage of about
16 MILES TO THE BARWAN RIVER, and
20 MILES TO THE MARRA CREEK,
which latter forms the western boundary of the whole. They are also intersected by the Ginge Creek.
These runs are capable of
DEPASTURING 8000 CATTLE IN ALL SEASONS.
THE IMPROVEMENTS, which are on the Marra Creek, about 16 miles back from the river, are a cottage residence, a large stockyard 32 panels square, capable of drafting four ways, also a small yard for horses, with milking bails, and killing yards.
With the Wyaberry runs will be sold
3000 HEAD OF WELL-BRED CATTLE, more or less.
*** A splendid draft of fat cattle now ready for market.
Stores, horses, drays, teams, implements, &c., to be taken at a valuation.
The Wyaberry runs are about 65 miles below the junction of the Namoi and Barwin, on the left bank of the latter river. The Darling River steamers have been higher up than these runs, and supplies have been obtained from them at a very cheap rate, thus avoiding the tedium and expense of long land-carriage. They are in every respect
FIRST-CLASS FATTENING RUNS.
*** Intending purchasers are invited to inspect these properties, which are in the market for bona fide sale. Any further particulars that may be required can be had by applying to Messrs. MORT and CO., Pitt-street, Sydney; or to CHARLES PARNELL, Esq., Osterly, Hunter River.
SKETCHES of the runs may be seen at the Rooms, Pitt-street.

LEICHHARDT DISTRICT, QUEENSLAND.
The valuable Station
BOXVALE,
together with
13,000, more or less FINE-WOOLLED SHEEP, and 500, more or less, HEAD OF CATTLE,
HELD UNDER A LEASE FOR FOURTEEN YEARS.
ESTIMATED GRAZING CAPABILITIES, 60,000 to 70,000 SHEEP.

TERMS—One-third Cash; residue by approved bills at one and two years, dated from day of sale with bank discount added, secured upon the stock and stations.

MORT and CO. have received instructions from the proprietor to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock on TUESDAY, 9th August,
That valuable pastoral property,
BOXVALE,
consisting of four large blocks of very superior sheep country, (and distant about twenty-two miles from the well-known and excellent run MOUNT HUTTON, belonging to Messrs. Kent, Weinholt, and Thelwall) comprising the main heads of the Dawson River, and the extensive country within the watershed of the same. The run consists chiefly of very beautiful undulating red soil, stony ridges, very lightly timbered, principally with box, and portions with myall and saltbush, and IS ABUNDANTLY WATERED.
Boxvale is situate about 250 miles from Rockhampton and Dalby, the proposed terminus of the Great Southern and Western Railway now being rapidly constructed.
The improvements are of a very substantial character, capable of working upwards of 30,000 sheep, and comprise—
Superintendent's cottage, with store, kitchen and men's huts.
An excellent paddock, nearly two miles in circumference.
Slaughtering and horse yards.
An excellent woolshed.
Seven sheep-station huts, with dog-proof double yards, each 50 x 100 yards, at each station, and a quantity of hurdles.
With Boxvale will be sold the following sheep:—
1,964, more or less, maiden ewes
1,145, more or less, ewes, 2½ years old
1,000, more or less, ewes, 3 and 4 years old } To lamb
2,070, more or less, ewes, 4 to 6 years old } August and September.
750, more or less, ewes
1,549, more or less, wethers, 2 years old
1,573, more or less, wethers, 3 years old
1,292, more or less, wethers, 5 years old and upwards
2,670, more or less, mixed weaners
147, more or less, rams
13,060, more or less.
The sheep are superior, and bred from some of the best blood in Queensland, the proprietor having culled his flocks extensively, being principally the produce of rams from the Glengallan, Felton, Gowrie, and Rosalie flocks.
Also,
500 more or less, HEAD OF CATTLE,
a mixed well-bred herd, and remarkably quiet.
*** Stores to be taken at cash price, with carriage added, and teams, drays, horses, implements, &c., to be taken at a valuation.
The estimated grazing capabilities of Boxvale are at least 40,000 to 50,000 sheep
in all seasons, and could by a moderate outlay be readily increased to 60,000 to 70,000 sheep.
In directing the attention of the public to the sale of this very valuable pastoral property, MORT and CO. would desire to impress upon intending purchasers the season of the year, and remind them of the great advantages accruing to the purchaser of this property by the near approach of the LAMBING and SHEARING SEASONS.
Inspection of the property is invited, and any further information required may be obtained upon application at the Rooms.
Plan on view.

PRELIMINARY NOTICE.

EXTENSIVE IMPORTANT SALE.

"THE GROVE."

The well-known Suburban Estate of J. S. Farnell, Esq., comprising about
300 ACRES,
extending from the Parramatta River to the Field of Mars Common, about midway between Gladesville Ferry and the pretty Village of Ryde, and including the beautifully situated Raven's Point, with extensive deep water frontage to the river, between the properties of J. Blaxland, Esq. and Dr. Brereton, and the Eugenie Estate belonging to Mrs. Delange.

The GROVE has been subdivided into lots of from 2 acres to 17 ACRES each, some of which are improved, and include the residence and garden of the proprietor, also the portions leased to Messrs. Wilson, Coxbridge, and others. The distance of the Estate from Sydney will be about 5 miles by the new road now being formed, and the Steam Punts via Five Dock and Balmain, the whole of which will be in working order within 12 months. Its present access is either by Bedlam or Gladesville Ferry, from the latter (where Parramatta steamers call eight times daily,) it is distant about one mile and a half.

The extreme beauty of this locality, and the capabilities of the soil for orchard and general culture are so well known and acknowledged that it is only necessary in a preliminary notice to state that the Grove will be positively sold, and to direct the special attention of all desirous of securing first-class Suburban Villa Sites, or small Farms, in a favourite situation, and with easy and improving access to the city.

Further particulars will appear in a future advertisement, in the meantime LITHOGRAPHIC PLANS of the subdivision can be obtained at the Rooms, Pitt-street; or on application to the proprietor, on the estate, who will gladly point out to intending purchasers the several lots.

Terms will be extremely liberal.

Title unquestionable. Full particulars can be obtained from Messrs. Norton and Barker, solicitors, Elizabeth-street.

RICHARDSON and WRENCH have received instructions from J. S. Farnell, Esq., to sell by public auction, at the Rooms, Pitt-street, on MONDAY, 18th July, at 11 o'clock,

That valuable suburban estate, THE GROVE, 300 acres, near the Gladesville Ferry, Parramatta River, in lots to suit purchasers.

BRISBANE WATER.

IMPROVED FARM of 72 ACRES, on Wyong Creek. The whole fenced, about ten acres cleared, stumped, and in cultivation. Also, a small Orangery and Orchard. The House is built of wood, lined and shingled, and contains 4 rooms. Also, an UNIMPROVED FARM of 49 Acres, about half a mile from the above, and divided from it by Wakins' 50 Acres.

RICHARDSON and WRENCH have received instructions from Mr. Andrew W. Turnbull to sell by public auction, without reserve, at the Rooms, Pitt-street, Sydney, on MONDAY, 25th July, at 11 o'clock,

The above described farm and homestead, situated on Wyong Creek, Brisbane Water, a few miles from Gosford, adjoining Derrington's property.

This will be a positive sale, and worthy the attention of parties seeking a good improved farm, with regular communication with Sydney.

Terms at sale.

For Sale by Auction, at Campbell's Wharf

On WEDNESDAY MORNING.

MR. W. DEAN has been favoured with instructions from W. H. Eldred, Esq., to sell by auction, at Campbell's Wharf, on WEDNESDAY, 13th July, at 12 o'clock prompt,
The entire cargo of picked teak timber, ex Alexander Baring, from Moulmein, comprising
SQUARE OR BAULK TIMBER.
530 pieces, various sizes, from 12 x 10 to 30 x 26, lengths from 20 to 51 feet.

166 pieces 1 inch, 12 inches wide
279 ditto 1 ditto, 10 ditto ditto
105 ditto ¾ ditto, 8 ditto ditto
778 ditto ½ ditto, 8 ditto ditto.
The sale of this choice shipment of Moulmein teak timber should command the attention of shipowners, timber merchants, coach builders, cabinet makers, and all persons requiring a really sound durable wood, it is needless to enlarge upon the many desirable qualities it possesses, as although teak timber has hitherto rarely been brought into this market, it is universally known and esteemed as one of the most valuable descriptions of wood in use, the "Moulmein teak" is especially in favour in Europe and in the Indian markets. It is light, easily worked, very durable, and possesses the rare quality of being impervious to corrosion from rust. The present shipment is the first parcel of Moulmein teak ever offered for sale in the colony. It has been chosen with due regard to the requirements of this market, and with especial care that none but timber of the best quality should be shipped. The sale being unreserved, offers to ship builders and others an opportunity of purchasing such as is seldom to be met with, and which it would be unwise to neglect.
Terms at sale.

Land and Household Property.
For Imperative Sale.
Town of Smithfield.

Lots 1, 2, and 3 of Section No. 20, being a corner allotment of land in the above town, situation and admeasurement as follows, viz.:—2 chains to Neville-street, 5 chains to Justin-street, and 1 chain to Liverpool Road, one and a half acre more or less, having erected thereon a first-class Country Store, 36 feet x 18 feet, with a Butcher's Shop attached; also, a Cottage, containing four lofty and spacious rooms. There are also Sheds, Stables, Kitchen and other Outhouses, a Garden, and an abundant supply of water in the driest seasons; the whole of which has been recently let to a highly respectable tenant for a term of 5 years at the rental of £50 per annum.
Title unexceptionable.

MR. JOHN SOLOMON has received instructions to sell by public auction, at his Rooms, 309, George-street, on THURSDAY, July 14th, at 12 o'clock sharp,
The above first-class property, being an excellent opportunity for an industrious man of small capital.
N.B.—Photographic views of the above property may be seen at the rooms of the auctioneer, where also cards may be had for inspecting it previous to the sale.

Public Notice.
Ornamental Plants, Flowering Shrubs, Fruit Trees, &c., from the well-known Nursery of Mr. M. Magill's, Surry Hills,

On THURSDAY, July 14th,

MR. JOHN SOLOMON will sell by auction, at his Rooms, 309, George-street,
A choice and varied collection of the above,
Terms, cash.

In consequence of the late Floods having prevented many intending purchasers from inspecting, the Sale is Postponed to
TUESDAY, 2nd August next,
upon which day the Runs and Stock will be positively sold.
Without Reserve.

By order of the Mortgagees.

All those SPLENDID FATTENING STATIONS, situate in the
DISTRICT OF GWYDIR, NEAR MOREE,
known as Cumbadello, Neepicalina, or Nepickallion, [illegible] having a considerable frontage to
THE MEHI RIVER;
together with 7000 HEAD of CATTLE (more or less), a mixed herd, to be mustered and delivered. Calves under six months old at time of delivery given in.

Terms.—One-third cash on the fall of the hammer; the remainder by approved promissory notes, in equal amounts, at one and two years, dated from day of sale, with interest added at the rate of 9 per cent. per annum; security by mortgage on the stock and stations.

MR. THOMAS CADELL has received instructions from the mortgagees to sell by public auction, at the Northumberland Hotel, West Maitland, on TUESDAY, 2nd August, 1864, at 12 o'clock,
All those STATIONS known as CUMBADELLO, NEEPICALINA or NEPICKALLION, and MINNE MINNANE, having a considerable frontage to the Mehi River, and otherwise watered by the Moonan, Bumble, and Warrangoomba Creeks, waterholes, and lagoons.

These superior stations adjoin or are near to the following well-known and celebrated pastoral properties, viz., Messrs. Lloyd's Bumble station, Bettington's Tycannah, J. Single's Tellarage, Bucknell's stations, Brown's Millie, and Pitt and Sullivan's Tyreel stations.

With Cumbadello and Neepicalina and Minne Minnane will be sold—

7000 head of cattle, more or less, a mixed herd, to be mustered and delivered to the purchaser.

Stock horses, about twenty, drays, stores, supplies, working gear and effects, &c., &c., to be taken at a valuation.

The country is described as being of the richest fattening description, adapted for depasturing either sheep or cattle, being chiefly myall and box, open plains, large flats, with salt-bush in abundance, and herbage of various kinds.

The improvements are described as follows:—A comfortable cottage, lately erected, boarded floors and shingled roof; garden, with fruit trees, &c., &c.; men's hut, yards; drafting and spaying yards, capable of working the herd efficiently; a large paddock, and a smaller one. These improvements are on Cumbadello; on Minne Minnane a hut and weaning yard.

The auctioneer particularly invites intending purchasers to inspect the runs and stock prior to day of sale, feeling satisfied that the quality of the herd, the extent and fattening capabilities of the runs—the country being well watered and adapted for both cattle and sheep—cannot fail to impress upon intending purchasers that this important squatting property, possessing so many advantages, offers an investment to be perhaps equalled, but not excelled in the colony, more especially as the sale is peremptory and unreserved.

The auctioneer will have much pleasure in supplying any information in his power.

THURSDAY, July 21.

To the Commissioners of the Ports and Harbours of the various colonies in Australia; Shipowners, Shipping Agents, Lighter Agents, Insurance Companies, Speculators, and others interested in the shipping interest of the colonies.

JAMES LAWRENCE will sell by auction, at Lloyd's Rooms, Collins-street West, Melbourne, on THURSDAY, July 21, at 12 o'clock,
The splendid and, without exception, the most powerful new steam-tug in the southern hemisphere
BUNGAREE,
of 150 horse-power actual,
of the following dimensions, viz.—length, 120 feet; beam, 22 feet; depth, 9 feet; found with a pair of grasshopper engines, similar to the tugs built on the river Tyne; cylinders of 44 inches and proportional stroke, with disconnecting and expansive gear; and fitted with every modern improvement for saving of fuel and easy working.

This fine tug-boat was built by the express order of the A. S. N. Company, by the celebrated builders, A. and G. Inglis and Co., of Glasgow, and will be found on inspection everything that can be desired for a first-class tug.

She is at present engaged at the port of Newcastle, New South Wales.

Full particulars and inventories can be had of the auctioneer, Lloyd's Rooms, Collins-street West, Melbourne.

Terms, liberal.

COLLEGIATE SCHOOL, Glebe Point. Principal—The Rev. JOHN PENDRILL, M.A., (Late of St. John's College, Oxford)

The course of instruction pursued in this school comprises the usual branches of a classical, liberal, and useful education.

The pupils, however, are not all required to follow indiscriminately the same studies, but are classified under three general divisions—the Classical, the Modern, and the Junior Divisions—each having, to a certain extent, its own special studies.

In the Classical Division, the course of instruction is intended chiefly as a preparation for the University and Learned Professions, and therefore the pupils in this division are necessarily required to devote a large portion of their time to Greek, Latin, Mathematics, and those other branches of study which form the groundwork of a successful University career.

In the Modern Division, the subjects of instruction are History, Geography, Natural Science, Arithmetic, Book-keeping, and English Composition, with Modern Languages, if required. This division is intended to meet the requirements of those who may be obliged to enter on a mercantile career, or other active pursuits at an early age, and are consequently compelled to restrict their studies to the most necessary and essential branches of a useful English education. Pupils in this division are not required to learn Latin or Greek, but an opportunity is given of keeping up any knowledge of these languages which they may have previously acquired.

In the Junior Division, the subjects of study are Reading, Spelling, Writing, Arithmetic, Geography, Grammar, the elements of History, of Composition, and of Latin.

The school accommodation and domestic arrangements are those of a superior and well conducted establishment.

Prospectuses of terms, &c., forwarded on application.

The VACATION will terminate on SATURDAY, July 16th.

Glebe Point, June 30th, 1864.
